

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Craig Edgren
DOCKET NO.: 22-41026.001-R-1
PARCEL NO.: 17-06-315-006-0000

The parties of record before the Property Tax Appeal Board are Craig Edgren, the appellant, by attorney Eric Feldman, of Eric Feldman & Assoc. P.C., in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$21,000
IMPR.: \$49,824
TOTAL: \$70,824

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame and masonry exterior construction with 1,214 square feet of living area and which is approximately 128 years old. Features include a full unfinished basement, 1½ bathrooms, central air conditioning, and a two-car garage. The property has a 3,000 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located in the same neighborhood code as the subject and within .18 of a mile from the subject. The comparables consist of class 2-03 1-story or 1.5-story dwellings of masonry exterior construction which range in age from 111 to 131 years old. The dwellings contain either

1,314 or 1,133 square feet of living area and have full unfinished basements, 1 bathroom, a fireplace, and a one-car or a two-car garage. The comparables have improvement assessments ranging from \$34,800 to \$47,554 or from \$30.71 to \$36.19 per square foot of living area.

Based on this evidence, the appellant requested a reduced improvement assessment of \$40,888 or \$33.68 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal." The appellant submitted a copy of the final decision disclosing the total assessment for the subject of \$70,824. The subject property has an improvement assessment of \$49,823 or \$41.04 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject and within ¼ of a mile from the subject. The comparables consist of class 2-03 1.5-story dwellings of masonry exterior construction which range in age from 118 to 129 years old. The dwellings range in size from 1,188 to 1,397 square feet of living area and have full basements, one of which has finished area, and 1 to 2½ bathrooms. Comparable #1 has central air conditioning and comparable #4 has two fireplaces. Three comparables have from a 1.5-car to a 2-car garage. The comparables have improvement assessments ranging from \$50,000 to \$62,000 or from \$42.09 to \$49.72 per square foot of living area.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine suggested equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to board of review comparable #1, due to a significant difference in dwelling size when compared to the subject property.

On this limited record, the Board finds the best evidence of assessment equity to be the appellant's comparables along with board of review comparables #2, #3 and #4, which are each relatively similar to the subject in location, dwelling size, foundation type and some features. Each comparable necessitates upward adjustments for the lack of central air conditioning which is a feature of the subject and three comparables need adjustment for differences in garage amenity/capacity when compared to the subject. These best comparables have improvement assessments ranging from \$34,800 to \$62,000 or from \$30.71 to \$49.72 per square foot of living

area. The subject's improvement assessment of \$49,824 or \$41.04 per square foot of living area falls within the range of the best comparables both in terms of overall improvement assessment and on a per-square-foot of living area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
