

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Woody Slaymaker  
DOCKET NO.: 22-41737.001-R-1  
PARCEL NO.: 14-20-427-004-0000

The parties of record before the Property Tax Appeal Board are Woody Slaymaker, the appellant, by attorney Stephanie Park of Park & Longstreet, P.C. in Inverness; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **a reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$75,000  
**IMPR.:** \$61,500  
**TOTAL:** \$136,500

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a three-story mixed-use building of masonry exterior construction with 6,000 square feet of gross building area. The building is approximately 92 years old. Features of the property include a partial basement and four full bathrooms. The property has a site with 5,000 square feet of land area and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on eight equity comparables that have the same assessment neighborhood code as the subject and are located from .06 of a mile to 1.26 miles from the subject property, three of which are also along the same street as the subject. The comparables are class 2-12 properties that are improved with two-story

or three-story mixed use buildings of masonry exterior construction ranging in size from 5,261 to 6,975 square feet of gross building area. The buildings range in age from 91 to 144 years old. Each comparable has a full or partial basement and from two to six full bathrooms. Six comparables each have from one to three additional half bathrooms, one comparable has central air, one comparable has two fireplaces and three comparables each have either a 1.5-car or a 2-car garage. The comparables have improvement assessments that range from \$7,250 to \$65,770 or from \$1.04 to \$10.56 per square foot of gross building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment of \$50,280 or \$8.38 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$144,420. The subject property has an improvement assessment of \$69,420 or \$11.57 per square foot of gross building area.

In support of its contention of the correct assessment the board of review submitted information on three equity comparables that have the same assessment neighborhood code as the subject and are located approximately  $\frac{1}{4}$  of a mile from the subject property or within the subject's subarea. The comparables are class 2-12 properties that are improved with three-story mixed-use buildings of masonry exterior construction ranging in size from 7,266 to 8,348 square feet of gross building area. The buildings range in age from 1 to 19 years old. The comparables each have a concrete slab foundation, central air conditioning and four or six full bathrooms. One comparable has two additional half bathrooms and two comparables each have a 2-car garage. The comparables have improvement assessments that range from \$112,479 to \$124,500 or from \$14.91 to \$15.54 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eleven comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #1, #2, #3, #5, #6 and #8 due to differences from the subject in building size, story height and/or location. The Board has given reduced weight to the three comparables submitted by the board of review due to their substantially larger building sizes, newer ages and central air conditioning feature, when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #4 and #7, which are similar to the subject in location, building size, story height and age. However, the comparables have varying degrees of similarity when compared to the subject in bathroom count and garage amenity, suggesting adjustments would be required to make the comparables more

equivalent to the subject. Nevertheless, these two comparables have improvement assessments of \$56,750 and \$65,641 or \$9.38 and \$10.56 per square foot of gross building area. The subject's improvement assessment of \$69,420 or \$11.57 per square foot of gross building area falls above the two best comparables in the record. After considering adjustments to the best comparables for differences from the subject, the Board finds the subject's improvement assessment is excessive. Based on this record, the Board finds the appellant did demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
