Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of two parcels improved with a 1-story dwelling of masonry exterior construction with 2,240 square feet of living area. The home was built in 1958 and is approximately 64 years old. Features include a partial basement, one fireplace and a 1.5-car garage. The property has a combined 9,346 square foot site and is located in Lincolnwood, Niles Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the subject's assessment neighborhood code and from 0.1 of a mile to 1.2 miles from the subject property. The comparables are improved with class 2-04 dwellings of masonry exterior construction ranging in size from 1,956 to 2,489 square feet of living area.

The home ranges in age from 65 to 68 years old. Each comparable has a full or partial basement and a 1-car or a 2-car garage. Three comparables each have one fireplace. The comparables have improvement assessments ranging from \$26,320 to \$38,668 or from \$13.46 to \$15.61 per square foot of living area. Based on this evidence, the appellant requested that the subject's total improvement assessment be reduced to \$33,690 or \$15.04 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" for one parcel under appeal. However, the appellant submitted a copy of the final decision of the Cook County Board for the 2022 assessment year concerning the two parcels which depicts assessments of \$20,240 for Parcel #1 (PIN 10-27-419-018-0000) and \$29,134 for Parcel #2 (PIN 10-27-419-019-0000). The subject's two parcels have a combined total assessment of \$49,374 and a total improvement assessment of \$36,290 or \$16.20 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located within the same neighborhood code as the subject property. Comparable #1 is located on the same tax block as the subject. The comparables are improved with one-story class 2-02, one-story class 2-04, or multi-level class 2-34 dwellings of masonry exterior construction ranging in size from 993 to 1,988 square feet of living area. The homes range in age from 66 to 69 years old. The comparables each have a full or partial basement, one of which has finished area. One comparable has central air conditioning. Two comparables each have one fireplace and a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$22,857 to \$37,546 or from \$18.89 to \$23.02 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #1 as well as the board of review comparables #2 and #3 due to substantial differences from the subject in dwelling size, dissimilar multi-level design when compared to the subject's 1-story design, and/or location 1.2 miles from the subject, less proximate to the subject than other comparables in this record.

The Board finds the best evidence of assessment equity to be the appellant's comparables #2, #3, and #4 as well as board of review comparable #1 which are similar to the subject in location, design/class, age, dwelling size, and other features. These comparables have improvement assessments ranging from \$32,078 to \$38,668 or from \$15.53 to \$18.89 per square foot of living area. The subject's total improvement assessment of \$36,290 or \$16.20 falls within the range

established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
