

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Stephen Little
DOCKET NO.: 22-42835.001-R-1
PARCEL NO.: 12-12-126-011-0000

The parties of record before the Property Tax Appeal Board are Stephen Little, the appellant(s), by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$20,856
IMPR.: \$27,440
TOTAL: \$48,296

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of masonry construction with 1,698 square feet of living area. The dwelling is approximately 68 years old. Features of the home include a full, central air conditioning, and a 2.5-car garage. The property has a 10,428 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on five class 2-03 equity comparable properties with varying degrees of similarities to the subject which are located within a 0.47-mile radius of the subject. The improvements were 68 or 69 years old, had 1,384 square feet of living area, and had improvement assessments from \$8.16 to \$10.93 per square foot of living area. Appellant

disclosed that this is an owner-occupied residence. Based on this evidence the appellant is seeking a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$48,296. The subject property has an improvement assessment of \$27,440 or \$16.16 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four class 2-03 equity comparable properties with varying degrees of similarities to the subject which are located within a ¼-mile radius of the subject. The improvements ranged: in age from 56 to 80 years; in size from 1,289 to 1,512 square feet of living area; and in improvement assessment from \$16.59 to \$17.91 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine equity comparable properties for the Board's consideration in determining assessment equity. After considering all the comparable properties submitted by the parties the Board finds that the comparable properties submitted by the parties lacked sufficient similarities with subject to allow a thorough analysis to determine if the subject was inequitably assessed. Appellant's suggested comparables varied from the subject in bathrooms, square feet of living area, basement, garage space, and in one case central air conditioning. Board of review's suggested comparables differed from the subject in bathrooms, square feet of living area, and, as to two comparables, in garage space and central air conditioning. There were not sufficient suggested comparables offered by the parties to allow the Board to establish a range by which to determine assessment equity.

While this Board finds that the board of review failed to provide evidence of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics to the subject, it is ultimately the appellant's burden of showing inequity in the assessment process by clear and convincing evidence. The appellant failed to do so and based on the record before the Board it is unable to establish a range for determining assessment equity. Accordingly, the Board finds that the appellant failed to show by clear and convincing evidence that the subject's improvement was inequitably assessed, and a reduction in the subject's assessment on this basis is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
