

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Digesh Patel
DOCKET NO.: 22-46189.001-R-1
PARCEL NO.: 10-18-202-045-0000

The parties of record before the Property Tax Appeal Board are Digesh Patel, the appellant, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,016
IMPR.: \$42,705
TOTAL: \$53,721

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and masonry exterior construction with 3,509 square feet of living area. The home is approximately 43 years old. Features include a full basement, central air conditioning, one fireplace, and a 2-car garage. The property has a 7,869 square foot site and is located in Morton Grove, Niles Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the subject's assessment neighborhood code and from 0.20 to 0.26 of a mile from the subject. The comparables are improved with 2-story, class 2-78 dwellings of frame and masonry exterior construction ranging in size from 3,436 to 3,667 square feet of living

area. The homes range in age from 43 to 45 years old. Each comparable has a partial basement, central air conditioning, one fireplace, and a 2-car to a 2.5-car garage. The comparables have improvement assessments ranging from \$30,153 to \$40,871 or from \$8.22 to \$11.62 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal." The appellant's submission included a copy of the final decision disclosing the subject has a total assessment of \$53,721. The subject has an improvement assessment of \$42,705 or \$12.17 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the subject's assessment neighborhood code. The comparables are located on the same tax block and/or street as the subject. The comparables are improved with 2-story, class 2-78 dwellings of frame and masonry exterior construction ranging in size from 3,291 to 3,442 square feet of living area. The homes range in age from 40 to 45 years old. Each comparable has a full or partial basement, central air conditioning, one fireplace, and from a 2-car to a 3-car garage. The comparables have improvement assessments ranging from \$43,983 to \$46,983 or from \$12.78 to \$14.28 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board accords diminished weight to the appellant's comparables which are located less proximate to the subject than the other comparables in this record.

The Board finds the best evidence of assessment equity to be the board of review comparables which are located most proximate to the subject, on the same tax block/ and/or along the same street as the subject property. The most proximate comparables are similar to the subject in location, design/class, age, dwelling size, and other features. The best comparables have improvement assessments ranging from \$43,983 to \$46,983 or from \$12.78 to \$14.28 per square foot of living area. The subject's improvement assessment of \$42,705 or \$12.17 per square foot of living area falls below the range established by the best comparables in this record. After considering adjustments to the best equity comparables for differences from the subject, the Board finds the appellant did not demonstrate that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
