

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Rosa Naula
DOCKET NO.: 22-46350.001-R-1
PARCEL NO.: 13-14-103-012-0000

The parties of record before the Property Tax Appeal Board are Rosa Naula, the appellant, by attorney Andrew S. Dziuk, of Andrew Dziuk, Esq. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,500
IMPR.: \$22,500
TOTAL: \$33,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame exterior construction with 1,663 square feet of living area and is approximately 109 years old. Features include a slab foundation, 1.0 bathroom, and a 2-car garage. The property has a 3,750 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables with the same assessment neighborhood code as the subject. The comparables are improved with class 2-03 dwellings of frame exterior construction ranging in size from 1,356 to 1,800 square feet of living area. The comparables range in age from 95 to 124 years old. Three comparables each have a full basement and two comparables each have a slab foundation. Each comparable has 1.0 bathroom. Four comparables each have a 1-car or a 1.5-car garage. The

comparables have improvement assessments ranging from \$18,058 to \$21,250 or from \$10.30 to \$13.82 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$35,000. The subject property has an improvement assessment of \$24,500 or \$14.73 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are improved with 1.5-story, class 2-03 dwellings of frame exterior construction ranging in size from 1,266 to 1,501 square feet of living area. The comparables range in age from 110 to 115 years old. Each comparable has a full or partial basement with one of these having finished area, from 1.0 to 2.0 bathrooms, and a 2-car garage. Comparable #4 has central air conditioning and one fireplace. The comparables have improvement assessments ranging from \$25,250 to \$33,500 or from \$19.53 to \$22.63 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board accords diminished weight to the appellant's comparables #1, #2, and #4 as well as the board of review comparables which have basement foundations, unlike the subject, and/or are less similar to the subject in dwelling size than other comparables in this record. Further, the appellant's comparable #1 lacks a garage amenity, which the subject features.

The Board finds the best evidence of assessment equity to be the appellant's comparables #3 and #5 which are more similar to the subject in class, age, dwelling size, and other features. The two best comparables have improvement assessments of \$18,058 and \$20,450 or \$13.32 and \$13.82 per square foot of living area, respectively. The subject's improvement assessment of \$24,500 or \$14.73 per square foot of living area falls above the two best comparables in this record and is excessive. After considering appropriate adjustments to the two best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
