

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ap Grobelny
DOCKET NO.: 22-46443.001-R-1
PARCEL NO.: 13-17-107-103-0000

The parties of record before the Property Tax Appeal Board are Ap Grobelny, the appellant, by attorney Andrew S. Dziuk, of Andrew Dziuk, Esq. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,920
IMPR.: \$9,698
TOTAL: \$20,618

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame exterior construction with 1,492 square feet of living area and is approximately 112 years old. Features include a full basement and 2.0 bathrooms. The property has a 3,900 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables that are located in the subject's assessment neighborhood code. The comparables are improved with class 2-03 dwellings of frame exterior construction with either 1,584 or 1,650 square feet of living area. The comparables range in age from 99 to 108 years old. Three comparables each have a full or partial basement and either 1.0 or 1.5 bathrooms. The

comparables have improvement assessments ranging from \$10,173 to \$10,673 or from \$6.38 to \$6.47 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$9,518 or \$6.38 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$23,000. The subject property has an improvement assessment of \$12,080 or \$8.10 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located in the subject's assessment neighborhood code. The comparables are improved with 1-story or 1.5-story, class 2-03 dwellings of frame exterior construction ranging in size from 1,004 to 1,080 square feet of living area. The comparables range in age from 101 to 115 years old. Three comparables each have a full basement and one comparable has a slab foundation. Each comparable has 1.0 or 1.5 bathrooms. One comparable has central air conditioning. One comparable has a 3-car garage. The comparables have improvement assessments ranging from \$8,704 to \$15,988 or from \$8.67 to \$14.97 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gives less weight to the board of review comparables which are approximately 28% to 33% smaller homes than the subject, as well as some of these comparables also presenting additional differences from the subject in foundation type, central air conditioning, and/or garage amenity.

The Board finds the best evidence of assessment equity to be the appellant's comparables which are more similar to the subject in location, class, age, dwelling size, and most features. The comparables have improvement assessments ranging from \$10,173 to \$10,673 or from \$6.38 to \$6.47 per square foot of living area. The subject's improvement assessment of \$12,080 or \$8.10 per square foot of living area falls above the range established by the best comparables in this record and is excessive. After considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
