

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Piotr Staszal
DOCKET NO.: 22-46616.001-R-1
PARCEL NO.: 13-20-218-029-0000

The parties of record before the Property Tax Appeal Board are Piotr Staszal, the appellant, by attorney Andrew S. Dziuk of Andrew Dziuk, Esq. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,850
IMPR.: \$21,012
TOTAL: \$31,862

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of masonry exterior construction with 1,973 square feet of living area.¹ The dwelling is approximately 103 years old. Features of the home include a full unfinished basement, two full bathrooms, central air conditioning and a one-car garage. The property has a 3,875 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that have the same assessment neighborhood code and property classification code

¹ The board of review described the subject dwelling as a one-story design with an unfinished basement and central air conditioning, which was not refuted by the appellant.

as the subject. The comparables are improved with dwellings of masonry exterior construction ranging in size from 1,822 to 2,080 square feet of living area. The dwellings are from 70 to 100 years old. The comparables each have a full basement. No data was provided by the appellant concerning basement finish, if any for the comparables. Each comparable has one or two full bathrooms, three comparables each have an additional half bathroom and four comparables each have either a one-car or a two-car garage. The comparables have improvement assessments that range from \$13,542 to \$15,584 or from \$7.02 to \$7.49 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$13,850 or \$7.02 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$31,862. The subject property has an improvement assessment of \$21,012 or \$10.65 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are within the same block or approximately ¼ of a mile from the subject property. The comparables are improved with 1.5-story dwellings of frame or masonry exterior construction ranging in size from 1,885 to 2,133 square feet of living area. The dwellings are from 93 to 108 years old. Two comparables each have a concrete slab foundation and two comparables each have a full unfinished basement. Each comparable has one or two full bathrooms and either a one-car or a two-car garage. Two comparables each have an additional half bathroom and three comparables have central air conditioning. The comparables have improvement assessments that range from \$24,450 to \$28,376 or from \$12.21 to \$15.05 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparable #5 due to its newer dwelling age, when compared to the subject.

The Board finds the appellant's comparables #1, #2, #3 and #4, along with the four comparables submitted by the board of review have the same assessment neighborhood code and property classification code as the subject. These eight comparables are similar to the subject in location, dwelling size and age but have varying degrees of similarity when compared to the subject in features, such as foundation type, bathroom count, central air conditioning and garage capacity,

if any, suggesting adjustments would be required to make the comparables more equivalent to the subject. Nevertheless, the comparables have improvement assessments ranging from \$13,542 to \$28,376 or from \$7.02 to \$15.05 per square foot of living area. The subject's improvement assessment of \$21,012 or \$10.65 per square foot of living area falls within the range established by the best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
