

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sunil & Alvina Pullukat
DOCKET NO.: 22-46930.001-R-1
PARCEL NO.: 10-22-320-037-0000

The parties of record before the Property Tax Appeal Board are Sunil & Alvina Pullukat, the appellants, by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,196
IMPR.: \$49,803
TOTAL: \$56,999

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story building of masonry exterior construction with 3,339 square feet of building area. The building is approximately 71 years old. Features of the building include a full basement and four full bathrooms. The property has an approximately 5,535 square foot site and is located in Skokie, Niles Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellants submitted information on four equity comparables that are located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-11, 2-story buildings of masonry exterior construction that range in size from 3,652 to 3,661 square feet of building area. The buildings are each 71 years old. Each building has a full basement and four full bathrooms. Two comparables have central air conditioning. The comparables have improvement assessments that range from \$42,645 to \$43,365 or from \$11.65 to \$11.87 per square foot of building area. Based on this

evidence, the appellants requested the subject's improvement assessment be reduced to \$39,133 or \$11.72 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$56,999. The subject property has an improvement assessment of \$49,804 or \$14.92 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-11, 2-story buildings of masonry exterior construction that each contain 3,339 square feet of building area. The buildings are 71 or 73 years old. Each building has a full basement and four full bathrooms. One comparable has a 2-car garage. The comparables have improvement assessments ranging from \$51,222 to \$51,863 or from \$15.34 to \$15.53 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayers contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight suggested equity comparables for the Board's consideration. The Board has given less weight to appellants' comparables #3 and #4 as well as board of review comparable #1 due to their differences from the subject in garage and/or central air conditioning amenity.

The Board finds the best evidence of assessment equity to be appellants' comparable #1 and #2 along with board of review comparables #2, #3 and #4. The Board finds that these comparables are most similar to the subject in building size, age, design and some features. These most similar comparables have improvement assessments ranging from \$42,645 to \$51,805 or from \$11.65 to \$15.52 per square foot of building area. The subject's improvement assessment of \$49,803 or \$14.92 per square foot of building area, falls within the range of the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
