

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: MRJP VENTURES, LLC
DOCKET NO.: 22-47105.001-R-1
PARCEL NO.: 20-34-201-012-0000

The parties of record before the Property Tax Appeal Board are MRJP VENTURES, LLC, the appellant, by attorney Abby L. Strauss of Schiller Law P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,975
IMPR.: \$16,025
TOTAL: \$23,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story multi-family building of masonry exterior construction with 7,236 square feet of gross building area. The dwelling is approximately 99 years old. Features of the building include a full basement, six bathrooms and a 3-car garage. The property has a 5,580 square foot site and is located in Chicago, Hyde Park Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located from .67 of a mile to 1.15 miles from the subject property. The comparables are improved with three-story multi-family buildings of masonry

exterior construction ranging in size from 7,140 to 7,389 square feet of gross building area. The buildings are from 96 to 99 years old. Each comparable has a full basement and six full bathrooms. Three comparables each have either a 2.5-car, a 3-car or a 4-car garage. The comparables have improvement assessments that range from \$6,544 to \$8,141 or from \$.90 to \$1.13 per square foot of gross building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$23,000. The subject property has an improvement assessment of \$16,025 or \$2.21 per square foot of gross building area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located within the same block or approximately ¼ of a mile from the subject property, three of which are also along the same street as the subject. The comparables are improved with three-story multi-family buildings of masonry exterior construction ranging in size from 7,128 to 7,236 square feet of gross building area. The buildings are from 94 to 96 years old. Each building has a full unfinished basement, six full bathrooms and either a 2-car or a 3-car garage. The comparables have improvement assessments that range from \$15,800 to \$18,800 or from \$2.20 to \$2.64 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #2 and #4 due to their lack of a garage, a feature of the subject and their distant location being greater than one mile away from the subject, respectively.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #3, along with the four comparables submitted by the board of review, which have the same assessment neighborhood code and property classification code as the subject. These six comparables are overall more similar to the subject in location, building size, design, age and many features. The comparables have improvement assessments ranging from \$6,544 to \$18,800 or from \$.90 to \$2.64 per square foot of gross building area. The subject's improvement assessment of \$16,025 or \$2.21 per square foot of gross building area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables in the record for differences from the subject, the Board finds the appellant did not

demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence presented.

Based on this record, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
