

FINAL ADMINISTRATIVE DECISION ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Jose Garcia

DOCKET NO.: 22-47661.001-R-1 PARCEL NO.: 26-20-110-024-0000

The parties of record before the Property Tax Appeal Board are Jose Garcia, the appellant, by attorney Brian P. Liston of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds <u>no change</u> in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,000 **IMPR.:** \$18,000 **TOTAL:** \$24,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 2,162 square feet of living area. The dwelling is approximately 36 years old. The home features a partial basement that is finished with a formal recreation room, two full bathrooms, a fireplace and a two-car garage. The property has a 5,000 square foot site and is located in Chicago, Hyde Park Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity

comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located either .1 or .3 of a mile from the subject property. The comparables are improved with two-story dwellings of frame and masonry exterior construction ranging in size from 2,218 to 2,456 square feet of living area. According to the property characteristic printouts provided by the appellant, the dwellings are from 33 to 40 years old. The comparables each have a partial basement. No data was provided by the appellant concerning basement finish, if any, for the comparables. Each comparable has two full bathrooms, two comparables each have an additional half bathroom and two comparables have central air conditioning. Each comparable has a fireplace and a two-car garage. The comparables have improvement assessments that range from \$15,000 to \$17,833 or from \$6.11 to \$8.04 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$15,674 or \$7.25 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$24,000. The subject property has an improvement assessment of \$18,000 or \$8.33 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located within the same block and along the same street as the subject property. The comparables are improved with two-story dwellings of masonry or frame and masonry exterior construction containing 2,190 or 2,218 square feet of living area. The dwellings are each 34 years old. The comparables each have a partial basement, three of which are finished with a formal recreation room. Each comparable has one or two full bathrooms, two comparables each have either one or two additional half bathrooms and three comparables have central air conditioning. Each comparable has one or two fireplaces and three comparables each have a two-car garage. The comparables have improvement assessments of \$20,000 or \$22,000 or \$9.02 or \$10.05 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparable #1 due to its larger dwelling size when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #2 and #3, along with the four comparables submitted by the board of review comparable, which are

similar to the subject in location, dwelling size, design and age. However, the Board finds these six comparables have varying degrees of similarity when compared to the subject in bathroom count, fireplace count, basement finish and garage amenity, suggesting adjustments would be required to make the comparables more equivalent to the subject. Nevertheless, the comparables have improvement assessments ranging from \$17,030 to \$22,000 or from \$7.60 to \$10.05 per square foot of living area. The subject's improvement assessment of \$18,000 or \$8.33 per square foot of living area falls within the range established by the best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
