

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Shamaila Khan
DOCKET NO.: 22-48247.001-R-1
PARCEL NO.: 10-23-307-016-0000

The parties of record before the Property Tax Appeal Board are Shamaila Khan, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,642
IMPR.: \$29,358
TOTAL: \$36,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of masonry exterior construction with 1,499 square feet of living area. The dwelling is approximately 66 years old. Features of the home include a basement with finished area, central air conditioning and a 1-car garage. The property has an approximately 4,920 square foot site and is located in Skokie, Niles Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables located in the same assessment neighborhood code as the subject property. The comparables are also located in a different township section than the subject property. The comparables are improved with 1-story, 1.5-story or 1.6-story class 2-03 dwellings of frame,

masonry, or frame and masonry exterior construction ranging in size from 1,395 to 1,635 square feet of living area. The homes range in age from 60 to 73 years old. Each comparable has a basement, three of which have finished area. Four dwellings have central air conditioning, one home has a fireplace and four properties each have a 2-car garage. The comparables have improvement assessments ranging from \$17,644 to \$22,556 or from \$12.65 to \$13.80 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$20,596 or \$13.74 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$36,000. The subject property has an improvement assessment of \$29,358 or \$19.59 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same assessment neighborhood code and block as the subject property. The comparables are improved with 1-story class 2-03 dwellings of masonry or frame and masonry exterior construction ranging in size from 1,134 to 1,351 square feet of living area. The homes range in age from 63 to 70 years old. Each comparable has a basement, one of which has finished area. One dwelling has central air conditioning and two properties have a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$24,050 to \$27,358 or from \$20.25 to \$21.48 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables which are less similar to the subject in location and/or design. The Board gives less weight to board of review comparables #1 and #4 which are less similar to the subject in dwelling size.

The Board finds the best evidence of assessment equity to be board of review comparables #2 and #3 which are more similar to the subject in location, age and design. However these two properties present varying degrees of similarity to the subject in dwelling size, basement finish, garage amenity and presence of central air conditioning, suggesting adjustments are needed to make these comparables more equivalent to the subject. These two comparables have improvement assessments of \$27,358 or \$20.25 and \$20.36 per square foot of living area. The subject's improvement assessment of \$29,358 or \$19.59 per square foot of living area falls above the two best comparables in this record on an overall improvement assessment basis and below the two best comparables on a per square foot basis. Accepted real estate theory provides that, all things being equal, as the size of a property increases, the per unit value decreases. In

contrast, as the size of a property decreases, the per unit value increases. Given the subject's larger dwelling size a higher improvement assessment and lower per square foot assessment appears logical. Therefore, after considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
