

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Nilesh Pandey
DOCKET NO.: 22-48260.001-R-1
PARCEL NO.: 10-21-331-043-0000

The parties of record before the Property Tax Appeal Board are Nilesh Pandey, the appellant, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,233
IMPR.: \$24,766
TOTAL: \$31,999

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of masonry exterior construction with 1,351 square feet of living area. The dwelling is approximately 56 years old. Features include a partial basement and one full bathroom. The property has a 5,564 square foot site and is located in Morton Grove, Niles Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the subject's assessment neighborhood. The comparables are improved with 1-story or 1.5-story, class 2-03 homes of masonry exterior construction ranging in size from 1,138 to 1,616 square feet of living area. The dwellings are from 65 to 68 years old. Four comparables each have a full or partial basement and one comparable has a crawl space

foundation. Each comparable has one or two full bathrooms, one fireplace, and from a 1-car to a 2-car garage. Two comparables each have an additional half bathroom and central air conditioning. The comparables have improvement assessments ranging from \$18,250 to \$25,130 or from \$13.90 to \$16.06 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal." The appellant submitted the board of review final decision disclosing the total assessment for the subject of \$31,999. The subject property has an improvement assessment of \$24,766 or \$18.33 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located within the subject's assessment neighborhood. The comparables are improved with 1-story, class 2-03 of masonry exterior construction ranging in size from 1,020 to 1,100 square feet of living area. The dwellings are from 57 to 66 years old. Each comparable as a full basement and one full bathroom. Two comparables each have central air conditioning. Two comparables each have a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$19,330 to \$26,176 or from \$18.95 to \$23.80 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The parties' comparables have varying degrees of similarity to the subject in property characteristics, and the Board finds none of the parties' comparables are truly similar to the subject. Each of the parties' comparables present differences, when compared to the subject, in two or more property characteristics/features which would require appropriate adjustments for these differences to make them more equivalent to the subject. The parties' comparables have improvement assessments ranging from \$18,250 to \$26,176 or from \$13.90 to \$23.80 per square foot of living area. The subject's improvement assessment of \$24,766 or \$18.33 per square foot of living area falls within the range established by the comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
