

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Hung Nguyen
DOCKET NO.: 22-48492.001-R-1
PARCEL NO.: 10-28-424-023-0000

The parties of record before the Property Tax Appeal Board are Hung Nguyen, the appellant, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,870
IMPR.: \$68,456
TOTAL: \$77,326

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a 2-story dwelling of masonry exterior construction with 4,615 square feet of living area. The dwelling is approximately 16 years old. Features include a full basement, central air conditioning, two fireplaces, and a 3-car garage. The property has a 6,336 square foot site and is located in Lincolnwood, Niles Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the subject's assessment neighborhood from 0.09 of a mile to 1.06 miles from the subject property. The comparables are improved with 2-story, class 2-08 dwellings of masonry exterior construction ranging in size from 3,994 to 4,767 square feet of

living area. The homes range in age from 16 to 33 years old. Each home has a full basement, central air conditioning, one fireplace, and a 2-car or a 3-car garage. The comparables have improvement assessments ranging from \$59,475 to \$73,668 or from \$13.60 to \$15.45 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$67,748 or \$14.68 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal." The appellant submitted the board of review final decision disclosing the total assessment for the subject of \$86,999. The subject property has an improvement assessment of \$78,129 or \$16.93 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on one equity comparable located within the subject's assessment neighborhood. The comparable is the same property as the appellant's comparable #1 which was previously described. Based on the evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted five equity comparables for the Board's consideration, as one comparable is common to both parties. The Board gives less weight to the appellant's comparable #3 due to differences when compared to the subject in age and dwelling size. The Board also gives less weight to the appellant's comparable #5 which is located over one mile from the subject, less proximate than other comparables in this record.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1, #2, and #4 which are overall more similar to the subject in location, design/class, age, dwelling size, and other features. The best comparables have improvement assessments ranging from \$64,257 to \$67,134 or from \$13.60 to \$15.20 per square foot of living area. The subject's improvement assessment of \$78,129 or \$16.93 per square foot of living area falls above the range established by the best comparables in this record and appears to be excessive. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
