

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gregory Bloden
DOCKET NO.: 22-48544.001-R-1
PARCEL NO.: 10-28-423-032-0000

The parties of record before the Property Tax Appeal Board are Gregory Bloden, the appellant, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,696
IMPR.: \$29,304
TOTAL: \$36,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of masonry exterior construction with 1,508 square feet of living area. The dwelling is approximately 69 years old. Features of the home include a full basement, central air conditioning and a 1-car garage. The property has a 4,960 square foot site and is located in Skokie, Niles Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five comparables located within the subject's assessment neighborhood and within 0.19 of a mile of the subject property. The comparables consist of class 2-03, 1-story dwellings of masonry exterior construction ranging in size from 1,590 to 1,785 square feet of living area. The dwellings are 64

to 71 years old. Each comparable has a partial or full basement, central air conditioning, a fireplace, and either a 1-car or 2-car garage. The comparables have improvement assessments ranging from \$17,943 to \$20,179 or from \$11.05 to \$11.48 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject property of \$36,000. The subject property has an improvement assessment of \$29,304 or \$19.43 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the subject's assessment neighborhood, and three of the comparables are located within the subject's same block or approximately ¼ of a mile of the subject property. The comparables consist of class 2-03, 1.5-story dwellings of masonry exterior construction ranging in size from 1,339 to 1,463 square feet of living area. The comparables are 69 to 72 years old. Each comparable has a full basement, three comparables each have central air conditioning, one comparable has a fireplace, and three comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$28,304 to \$30,304 or from \$20.03 to \$21.14 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board gives less weight to the appellant's comparables which are less similar to the subject in story height and/or dwelling size than the board of review's comparables.

The Board gives more weight to the board of review's comparables that are overall most similar to the subject in their 1.5-story height, age, location and dwelling size but have varying degrees of similarity to the subject in other features. These four comparables have improvement assessments ranging from \$28,304 to \$30,304 or from \$20.03 to \$21.14 per square foot of living area. The subject's improvement assessment of \$29,304 or \$19.43 per square foot of living area falls within the range established by the best comparables in the record in terms of an overall basis but below on a per-square foot basis. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
