

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Tsolov
DOCKET NO.: 22-49011.001-R-1
PARCEL NO.: 14-33-111-004-0000

The parties of record before the Property Tax Appeal Board are Tsolov, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd., in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$27,900
IMPR.: \$106,730
TOTAL: \$134,630

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story row house/townhouse of masonry exterior construction with 2,607 square feet of living area. The dwelling is approximately 146 years old. Features include a full basement, two fireplaces, and a 1.5-car garage. The property has a 2,232 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-10 property under the Cook County Real Property Assessment Classification Ordinance.¹

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located in the same neighborhood code as the subject. The comparables consist of class 2-10 two-story and three-story dwellings of masonry exterior construction. The dwellings

¹ Class 2-10 is defined as "Old style row house (townhome), over 62 years of age."

range in age from 95 to 133 years old and range in size from 2,564 to 3,732 square feet of living area. Features include full basements, and comparable #2 has central air conditioning. Four comparables each have a fireplace. The comparables have improvement assessments ranging from \$59,525 to \$91,580 or from \$23.22 to \$25.14 per square foot of living area.

Based on this evidence, the appellant requested a reduced improvement assessment of \$63,245 or \$24.26 per square foot of living area which reflects the “median” of the presented comparables.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$134,630. The subject property has an improvement assessment of \$106,730 or \$40.94 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject and same block, subarea or ¼ of a mile from the subject. The comparables consist of class 2-10 three-story row house/townhouses of masonry exterior construction that are 129 to 142 years old. The homes range in size from 2,067 to 2,682 square feet of living area. The comparables have full basements, central air conditioning, one or two fireplaces and three comparables each have a two-car garage. The comparables have improvement assessments ranging from \$94,675 to \$125,725 or from \$41.03 to \$60.82 per square foot of living area.

Based on this evidence, the board of review requested confirmation of the subject’s assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted on this record.

The parties submitted a total of nine equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to appellant’s comparables #2, #3, #4 and #5, due to substantial differences in age of 49 and 51 years newer than the subject dwelling. The Board has given reduced weight to board of review comparables #2 and #4, due to substantial differences in dwelling size of approximately 12% and 21% when compared to the subject dwelling.

The Board finds the best evidence of assessment equity in the record to be appellant’s comparable #1 along with board of review comparables #1 and #3, which are similar to the subject in location, classification, exterior construction, foundation type, and some features. Adjustments to the comparables for differences in age, dwelling size, air conditioning, fireplace count/amenity and/or garage capacity/amenity to make these properties more similar to the subject. These best comparables have improvement assessments ranging from \$59,525 to

\$110,035 or from \$23.22 to \$45.46 per square foot of living area. The subject's improvement assessment of \$106,730 or \$40.94 per square foot of living area is within the range of these best comparables both in terms of overall improvement assessment and on a per-square-foot of living area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject property, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
