

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Yun Pearson
DOCKET NO.: 22-49484.001-R-1
PARCEL NO.: 14-33-306-056-0000

The parties of record before the Property Tax Appeal Board are Yun Pearson, the appellant, by attorney Jeremy Rosenfeld of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,500
IMPR.: \$63,500
TOTAL: \$74,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story dwelling of masonry exterior construction with 1,876 square feet of living area. The dwelling is approximately 28 years old. Features of the home include a concrete slab foundation, central air conditioning, 2½ bathrooms, a fireplace and a two-car garage. The property has an 840 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-95 property, a townhome or row house up to 62 years of age, under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located within .4 of a mile from the subject property and are

improved with dwellings of masonry exterior construction each containing 2,179 square feet of living area. Each dwelling is 43 years old and has a concrete slab foundation, central air conditioning, 2½ bathrooms, a fireplace and a one-car garage. The comparables have improvement assessments that range from \$61,275 to \$64,088 or from \$28.12 to \$29.41 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$54,329 or \$28.96 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$74,000. The subject property has an improvement assessment of \$63,500 or \$33.85 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located on the same street and within the same block as the subject property. Each comparable is improved with a three-story dwelling of masonry exterior construction containing 1,876 square feet of living area. Each dwelling is 27 years old and has a concrete slab foundation, central air conditioning, 2½ bathrooms, one or two fireplaces and a two-car garage. The comparables each have an improvement assessment of \$63,500 or \$33.85 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables which differ from the subject dwelling in size and age.

The Board finds the best evidence of assessment equity to be the four comparables submitted by the board of review, which are identical to the subject dwelling in size and design and similar to the subject in location, age and some features. The comparables each have an improvement assessment of \$63,500 or \$33.85 per square foot of living area. The subject's improvement assessment of \$63,500 or \$33.85 per square foot of living area is equal to the four best comparables in the record. Therefore, based on this record and after considering adjustments to the best comparables in the record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
