

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Daniel Allen
DOCKET NO.: 22-49735.001-R-1
PARCEL NO.: 03-30-202-033-0000

The parties of record before the Property Tax Appeal Board are Daniel Allen, the appellant, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,600
IMPR.: \$50,900
TOTAL: \$57,500

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and masonry exterior construction with 2,958 square feet of living area. The dwelling is 66 years old. Features of the home include a full basement, central air conditioning, and a 2-car garage. The property has a 6,600 square foot site and is located in Arlington Heights, Wheeling Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five comparables located within the subject's assessment neighborhood and within 0.64 of a mile from the subject. The comparables consist of class 2-06, 2-story dwellings of frame and masonry exterior construction ranging in size from 2,447 to 3,378 square feet of living area. The dwellings are 68

to 78 years old. Four comparables have full basements, and one comparable has a crawl space foundation. Four comparables each have central air conditioning, and each comparable has 1 or 2 fireplaces, and from a 1-car to a 3-car garage. The comparables have improvement assessments ranging from \$34,600 to \$47,400 or from \$11.60 to \$16.54 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$43,571 or \$14.73 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject property of \$60,140. The subject property has an improvement assessment of \$53,540 or \$18.10 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the same assessment neighborhood and subarea as the subject. The comparables consist of class 2-06, 2-story dwellings of frame and masonry exterior construction ranging in size from 2,496 to 3,249 square feet of living area. The dwellings are 68 to 77 years old. The comparables have partial or full basements, with three having finished area, central air conditioning, and from a 1-car to a 2.5-car garage. The comparables have improvement assessments ranging from \$44,329 to \$57,400 or from \$17.10 to \$17.70 per square foot of living area. The board of review noted there is "Evidence for reduction" in the notes on appeal.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #2, #3 and #4 along with the board of review's comparable #1 due to differences in their dwelling sizes and/or foundation type when compared to the subject.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables which are relatively similar to the subject in location, design, age, dwelling size, foundation type and some features. These four comparables have improvement assessments ranging from \$47,400 to \$57,400 or from \$16.54 to \$17.70 per square foot of living area. The subject's improvement assessment of \$53,540 or \$18.10 per square foot of living area falls within the range established by the best comparables in the record on an overall basis and above the range on a per square foot basis. After considering adjustments to the best comparables for differences from the subject, the Board finds the subject's improvement assessment is excessive. Based on this record, the Board finds a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
