

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: 837 W 33rd LLC  
DOCKET NO.: 22-49832.001-R-1  
PARCEL NO.: 17-32-219-015-0000

The parties of record before the Property Tax Appeal Board are 837 W 33rd LLC, the appellant, by Robert Rosenfeld, attorney-at-law of Robert H. Rosenfeld & Associates, LLC in Northbrook, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$14,600  
**IMPR.:** \$22,325  
**TOTAL:** \$36,925

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property is improved with a two-story multi-family building of masonry exterior of that contains 2,826 square feet of building area. The building is approximately 124 years old. Features of the building include a full unfinished basement and three bathrooms. The property has a 3,650 square foot site located in Chicago, South Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables composed of class 2-11 properties improved with two-story buildings of masonry exterior construction that range in size from 2,640 to 3,058 square feet of building area. The buildings range in age from 122 to 136 years old. Each property has a full basement with one

finished with an apartment, and two or three bathrooms. The comparables have the same assessment neighborhood code as the subject property and are located from 128 feet to .4 of a mile from the subject property. Their improvement assessments range from \$21,096 to \$23,500 or from \$7.68 to \$7.99 per square foot of building area. The appellant requested the subject's improvement assessment be reduced to \$22,071.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$51,250. The subject property has an improvement assessment of \$36,650 or \$12.97 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables composed of class 2-05 or 2-11 properties improved with two-story or three-story buildings of masonry or frame and masonry exterior construction that range in size from 800 to 4,008 square feet of building area. The buildings range in age from 105 or 136 years old. Two comparables have a full unfinished basement and one comparable has a slab foundation. The comparables have a 1.5-car or a 2-car garage. The comparables have 1, 3 or 6 full bathrooms and comparable #1 has an additional 3 half-bathrooms. These properties have the same neighborhood code as the subject property. The comparables have improvement assessments ranging from \$42,400 to \$45,000 or from \$11.14 to \$55.50 per square foot of building area.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted information on seven equity comparables to support their respective positions. The Board finds the best evidence of assessment equity to be the comparables submitted by the appellant as these properties are more similar to the subject property in building size than are the comparables submitted by the board of review. The appellant's comparable have improvement assessments that range from \$21,096 to \$23,500 or from \$7.68 to \$7.99 per square foot of building area. The subject's improvement assessment of \$36,650 or \$12.97 per square foot of building area falls above the range established by the best comparables in this record. Little weight is given the board of review comparables due to differences from the subject building in size. Based on this record the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
