

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Miguel Cabrera
DOCKET NO.: 22-50021.001-R-1
PARCEL NO.: 10-16-320-057-0000

The parties of record before the Property Tax Appeal Board are Miguel Cabrera, the appellant, by attorney George N. Reveliotis of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,254
IMPR.: \$29,571
TOTAL: \$36,825

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of masonry exterior construction with 1,456 square feet of living area. The dwelling is approximately 61 years old. Features of the dwelling include a partial basement with finished area, central air conditioning, a fireplace and a 2-car garage. The property has a 5,580 square foot site and is located in Skokie, Niles Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on four comparables that have the same property classification code and assessment neighborhood code as the subject. The comparables have sites that range in size from 6,600 to 7,588 square feet of land area. The comparables are improved with multi-level dwellings of masonry exterior construction ranging in size from 1,221 to 1,835 square feet

of living area. The dwellings are from 62 to 66 years old. Each comparable has a partial basement with finished area and central air conditioning. Three comparables each have a 1.5-car or a 2-car garage. The properties sold from March 2020 to May 2022 for prices ranging from \$280,000 to \$360,000 or from \$152.59 to \$233.01 per square foot of living area, land included. Based on this evidence, the appellant requested the subject's total assessment be reduced to \$29,834, reflecting a market value of \$298,340 or \$204.90 per square foot of living area, land included, when applying the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$36,825. The subject's assessment reflects a market value of \$368,250 or \$252.92 per square foot of living area, including land, when applying the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%.

In support of its contention of the correct assessment the board of review submitted information on four comparable properties that have the same property classification code and assessment neighborhood code as the subject. The comparables are located approximately ¼ of a mile from the subject or within the subject's subarea. The comparables have sites that range in size from 3,720 to 9,631 square feet of land area. The comparables are improved with multi-level dwellings of masonry or frame and masonry exterior construction ranging in size from 1,276 to 1,387 square feet of living area. The dwellings are from 50 to 62 years old. The comparables each have a partial basement with finished area and central air conditioning. Three comparables each have either a 1.5-car or a 2-car garage. The properties sold from October 2020 to September 2022 for prices ranging from \$350,000 to \$435,000 or from \$265.15 to \$333.59 per square foot of living area, land included. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight comparable sales for the Board's consideration. The Board has given less weight to the appellant's comparables #1 and #3, as well as board of review comparables #1 and #2, which differ from the subject in dwelling size and/or have sale dates that occurred in 2020, less proximate to the January 1, 2022 assessment date than other comparable sales in the record.

The Board finds the appellant's comparables #2 and #4, along with board of review comparables #3 and #4 have the same property classification code and assessment neighborhood code as the subject. These four comparables sold more proximate in time to the lien date at issue and are overall more similar to the subject in dwelling size, design and age. However, the Board finds

the comparables have varying degrees of similarity when compared to the subject in location, site size and features, suggesting adjustments would be required to make the comparables more equivalent to the subject. Nevertheless, these four comparables sold in May or September 2022 for prices ranging from \$305,000 to \$390,000 or from \$210.34 to \$281.18 per square foot of living area, including land. The subject's assessment reflects a market value of \$368,250 or \$252.92 per square foot of living area, including land, which falls within the range established by the best comparables in the record both in terms of overall market value and on a price per square foot basis. After considering adjustments to the best comparables for differences from the subject, the Board finds the subject's estimated market value as reflected by its assessment is supported. Therefore, based on this record, the Board finds a reduction in the subject's assessment is not warranted based on overvaluation.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
