

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Raisul Chowdhury
DOCKET NO.: 22-50326.001-R-1
PARCEL NO.: 04-13-112-006-0000

The parties of record before the Property Tax Appeal Board are Raisul Chowdhury, the appellant, by attorney Jeremy Rosenfeld of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$51,270
IMPR.: \$152,529
TOTAL: \$203,799

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 4,416 square feet of living area. The dwelling is approximately 1 year old. The home features a full basement with finished area, five full bathrooms, one-half bathroom, central air conditioning and a three-car garage. The property has a 51,270 square foot site and is located in Northfield, Northfield Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables that have the same assessment neighborhood code and property classification code as the subject and are located approximately 2 or 2.5 miles from the subject property. The comparables are improved with two or more-story dwellings of masonry exterior construction

ranging in size from 4,399 to 4,930 square feet of living area. The dwellings are from 2 to 7 years old. The comparables each have a full basement. The appellant indicated “n/a” in the finished basement area section of the grid analysis. Each comparable has three or four full bathrooms, one half bathroom, central air conditioning, one or two fireplaces and a three-car garage. The comparables have improvement assessments that range from \$127,500 to \$145,100 or from \$25.86 to \$32.01 per square foot of living area. Based on this evidence, the appellant requested the subject’s improvement assessment be reduced to \$130,184 or \$29.48 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$203,799. The subject property has an improvement assessment of \$152,529 or \$34.54 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are improved with two-story dwellings of frame, masonry or frame and masonry exterior construction ranging in size from 4,564 to 4,790 square feet of living area. The dwellings are from 2 to 10 years old. The comparables each have a full basement, two of which have finished area. Each comparable has four or five full bathrooms, one or two additional half bathrooms, central air conditioning, two or three fireplaces and a three-car garage. The comparables have improvement assessments that range from \$136,007 to \$223,056 or from \$29.80 to \$46.57 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject’s assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted six comparable properties for the Board’s consideration. The Board has given less weight to the appellant’s comparable #3 due to its considerably larger dwelling size when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant’s comparables #1 and #2, along with the three comparables submitted by the board of review, which have the same assessment neighborhood code and property classification code as the subject. These five comparables are overall more similar to the subject in dwelling size, design, age and some features. The comparables have improvement assessments that range from \$136,007 to \$223,056 or from \$29.80 to \$46.57 per square foot of living area. The subject's improvement assessment of \$152,529 or \$34.54 per square foot of living area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for

differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence presented.

Based on this record, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
