

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Warren and Winnie Zhu
DOCKET NO.: 22-50854.001-R-1
PARCEL NO.: 04-16-306-004-0000

The parties of record before the Property Tax Appeal Board are Warren and Winnie Zhu, the appellants, by attorney Jeremy Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$30,043
IMPR.: \$101,623
TOTAL: \$131,666

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction containing 6,312 square feet of living area. The dwelling is approximately 10 years old. Features of the home include a full basement with finished area, central air conditioning, two fireplaces, 5 full and 1 half bathrooms, and a three-car garage. The property has a 20,029 square foot site located in Northbrook, Northfield Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend inequity with respect to the improvement assessment as the basis of the appeal. In support of this argument the appellants submitted information on four equity comparables located within the subject's same assessment neighborhood and from 1.1 to 1.4 miles from the subject property. The comparables consist of class 2-09, two or more story

dwelling of masonry exterior construction ranging in size from 5,146 to 7,089 square feet of living area. The homes are from 11 to 18 years old. Each comparable has a full basement, central air conditioning, one to three fireplaces, 4 to 6 full and 1 half bathrooms and from a 3-car to a 4-car garage. The comparables have improvement assessments that range from \$75,703 to \$104,000 or from \$13.27 to \$14.71 per square foot of living area. The appellants requested the subject's improvement assessment be reduced to \$89,378.

The board of review submitted its "Board of Review Notes on Appeal." The appellants submitted a copy of the Cook County Board of Review final decision for the 2022 tax year disclosing the total assessment for the subject of \$131,666. The subject property has an improvement assessment of \$101,623 or \$16.10 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the subject's same assessment neighborhood and within the subject's same block or approximately $\frac{1}{4}$ of a mile from the subject property. Two comparables are also located along the same street as the subject property. The comparables consist of class 2-09, two-story dwellings of masonry exterior construction ranging in size from 5,333 to 6,106 square feet of living area. The homes are from 10 to 15 years old. Each comparable has a full basement with three having finished area, central air conditioning, 4 or 7 full and 1 or 2 half bathrooms and either a 2-car or a 3-car garage. Three comparables each have from one to three fireplaces. The comparables have improvement assessments that range from \$90,015 to \$132,683 or from \$16.10 to \$22.50 per square foot of living area.

Conclusion of Law

The appellants contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight assessment equity comparables for the Board's consideration. The Board gives less weight to appellants' comparables which are located over a mile from the subject property.

The Board finds the best evidence of assessment equity to be the board of review's comparables that are which are located on the subject's same block or within approximately $\frac{1}{4}$ of a mile from the subject property. These comparables are also relatively similar to the subject in design, age, and dwelling size with have varying degrees of similarity to the subject in other features. These four comparables have improvement assessments that range from \$90,015 to \$132,683 or from \$16.10 to \$22.50 per square foot of living area. The subject's improvement assessment of \$101,623 or \$16.10 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellants did not demonstrate

with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
