

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: George Cheriyan
DOCKET NO.: 22-51610.001-R-1
PARCEL NO.: 04-32-401-101-0000

The parties of record before the Property Tax Appeal Board are George Cheriyan, the appellant, by attorney Jeremy Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,711
IMPR.: \$66,288
TOTAL: \$80,999

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story multi-family building of frame and masonry exterior construction with 5,898 square feet of building area. The building is approximately 51 years old and features a basement finished with an apartment. The property has a 13,374 square foot site and is located in Glenview, Northfield Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within 0.3 of a mile from the subject. The comparables are improved with 2-story multi-family buildings ranging in size from 4,928 to 5,898 square feet of building area. The buildings are 51 years old and each features a basement finished with an apartment. The

comparables have improvement assessments ranging from \$50,526 to \$64,829 or from \$9.15 to \$10.99 per square foot of building area.

The appellant submitted a board of review final decision disclosing the total assessment for the subject of \$80,999. The appellant reported subject property has an improvement assessment of \$66,288 or \$11.24 per square foot of building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$60,160.

The board of review submitted its "Board of Review Notes on Appeal." In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located on the same block as the subject. The comparables are improved with 2-story multi-family buildings with 5,898 square feet of building area. The buildings range in age from 47 to 51 years old and each features a basement finished with an apartment. The comparables have improvement assessments ranging from \$68,417 to \$74,977 or from \$11.60 to \$12.71 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be sustained.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of eight equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #2 and #3, which are less similar to the subject in building size compared to the other comparables in this record, which are identical to the subject in building size.

The Board finds the best evidence of assessment equity to be the appellant's comparable #4 and the board of review's comparables, which are similar or identical to the subject in building size, age, location, and features. These comparables have improvement assessments that range from \$64,829 to \$74,977 or from \$10.99 to \$12.71 per square foot of building area. The subject's improvement assessment of \$66,288 or \$11.24 per square foot of building area falls within the range established by the best comparables in this record. Based on this record and after considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
