

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sean Bottom
DOCKET NO.: 22-51876.001-R-1
PARCEL NO.: 24-24-206-034-0000

The parties of record before the Property Tax Appeal Board are Sean Bottom, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby find **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,750
IMPR.: \$21,002
TOTAL: \$24,752

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of masonry exterior construction with 1,355 square feet of living area. The dwelling is approximately 69 years old. Features include a full basement with finished area, 1.5 bathrooms, and a 2-car garage. The property has a 3,750 square foot site and is located in Chicago, Lake Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of appeal. In support of this argument, the appellant submitted information on five equity comparables with the same assessment neighborhood code as the subject. The evidence also includes property characteristics printouts from the Cook County Assessor's Office which were analyzed to verify/update data in the Section V grid analysis. The comparables are improved with 1-story or 1.5-story, class 2-03 dwellings of masonry or frame and masonry exterior

construction ranging in size from 1,320 to 1,490 square feet of living area. The homes range in age from 45 to 78 years old. Each comparable has a full basement with finished area, from 1 to 2 bathrooms, and from a 1-car to a 2-car garage. Two comparables each have central air conditioning. The comparables have improvement assessments ranging from \$2,875 to \$3,275 or from \$2.11 to \$2.28 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal." The appellant submitted a copy of the final decision disclosing the total assessment the subject of \$24,752. The subject property has an improvement assessment of \$21,002 or \$15.50 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables with the same assessment neighborhood code as the subject. The comparables are improved with 1-story, class 2-03 dwellings of masonry exterior construction ranging in size from 1,025 to 1,080 square feet of living area. The homes range in age from 53 to 71 years old. Each comparable has a full basement, one of which has finished area, 1 bathroom, and a 2-car garage. Two comparables each have central air conditioning. The comparables have improvement assessments ranging from \$17,425 to \$18,063 or from \$16.55 to \$17.11 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested equity comparables for the Board's consideration with each having varying degrees of similarity in overall property characteristics. The Board notes that each of the parties' comparables have a garage amenity, which is a feature the subject lacks. Nevertheless, the comparables have improvement assessments ranging from \$2,875 to \$18,063 or from \$2.11 to \$17.11 per square foot of living area. The subject's improvement assessment of \$21,002 or \$15.50 per square foot of living area falls above the range established by the comparables in this record on an overall basis but within the range on a per square foot basis. Based on the equity evidence in this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

Further, the Board finds the appellant's requested improvement assessment, as indicated in the appeal petition, is the same as established by the board of review's final decision dated August 16, 2023.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
