

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Anna Ricobene
DOCKET NO.: 22-51933.001-R-1
PARCEL NO.: 17-33-105-018-0000

The parties of record before the Property Tax Appeal Board are Anna Ricobene, the appellant, by attorney Thomas E. Sweeney of Siegel Jennings Co., LPA in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,666
IMPR.: \$30,333
TOTAL: \$43,999

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story multi-family building of masonry exterior construction with 2,970 square feet of gross building area. The building is approximately 128 years old. Features of the building include a full basement, three full bathrooms and a 2-car garage. The property has a 3,106 square foot site and is located in Chicago, South Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on six equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located along the same street or less than a mile from the subject property. The comparables are improved with 1.5-story, 2-story or 3-story multi-family

buildings of frame, masonry or frame and masonry exterior construction ranging in size from 2,512 to 3,312 square feet of gross building area. The buildings are from 124 to 144 years old. One comparable has a crawl space foundation, two comparables each have a full basement and three comparables each have a concrete slab foundation. Each comparable has two or three bathrooms and three comparables each have a 2-car garage. The comparables have improvement assessments that range from \$19,721 to \$28,250 or from \$6.90 to \$8.53 per square foot of gross building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$22,810 or \$7.68 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$43,999. The subject property has an improvement assessment of \$30,333 or \$10.21 per square foot of gross building area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located within the same block or approximately ¼ of a mile from the subject property. The comparables are improved with 2-story multi-family buildings of masonry exterior construction ranging in size from 1,680 to 2,740 square feet of gross building area. The buildings are from 105 to 138 years old. The comparables each have a full basement, one of which is finished with an apartment and one of which is finished with a recreation room. Each comparable has two or three full bathrooms and two comparables each have a 1.5-car or a 2-car garage. Comparable #3 has central air conditioning. The comparables have improvement assessments that range from \$23,334 to \$37,593 or from \$11.05 to \$15.08 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted ten comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #2, #4, #5 and #6, as well as board of review comparables #1, #2 and #3, which lack a basement foundation and/or differ from the subject dwelling in size.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #3, along with board of review comparable #4, which have the same assessment neighborhood code and property classification code as the subject. The comparables have basement foundations, like the subject and are overall more similar to the subject in building size. However, these three buildings have varying degrees of similarity when compared to the subject

in building age, bathroom count, basement finish and garage amenity, suggesting adjustments would be necessary in order to make them more equivalent to the subject. Nevertheless, the comparables have improvement assessments ranging from \$21,250 to \$37,593 or from \$6.90 to \$13.72 per square foot of gross building area. The subject's improvement assessment of \$30,333 or \$10.21 per square foot of gross building area falls within the range established by the best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
