

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Victor Moy
DOCKET NO.: 22-51935.001-R-1
PARCEL NO.: 17-28-200-018-0000

The parties of record before the Property Tax Appeal Board are Victor Moy, the appellant, by Mary Kate Gorman, Attorney at Law, in Tinley Park, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,443
IMPR.: \$45,796
TOTAL: \$54,239

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story mixed use commercial and residential building of masonry exterior construction with 2,632 square feet of gross building area and which is approximately 27 years old. Features include a partial basement and central air conditioning. The property has a 1,919 square foot site and is located in Chicago, South Chicago Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables located in the same neighborhood code as the subject and from .27 to .78 of a mile from the subject. The comparables consist of class 2-12 two-story or three-story buildings of masonry exterior construction which range in age from 50 to 118 years old. The buildings range in size from 3,045 to 8,280 square feet of gross building area. Each building has a full basement,

central air conditioning, and comparable #2 has a two-car garage. The comparables have improvement assessments ranging from \$30,800 to \$82,784 or of \$10.00 or \$10.11 per square foot of gross building area. Based on this evidence, the appellant requested a reduced improvement assessment of \$26,425 or \$10.04 per square foot of gross building area reflecting the average of the comparables presented.

The board of review submitted its "Board of Review Notes on Appeal." The appellant supplied a copy of the final decision issued by the board of review disclosing the total assessment for the subject of \$54,239. The subject property has an improvement assessment of \$45,796 or \$17.40 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information on four properties which are located in the same neighborhood code as the subject and either the same block or ¼ of a mile from the subject. The comparables consist of class 2-12 two-story buildings of masonry exterior construction which are either 19 or 27 years old. The buildings range in size from 2,086 to 2,910 square feet of gross building area. Each comparable has a full or partial basement and central air conditioning. The comparables have improvement assessments ranging from \$36,296 to \$54,856 or from \$17.40 to \$20.94 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of seven suggested equity comparables in support of their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the appellant's comparables, due to their substantially older ages when compared to the subject and/or substantially larger building sizes when compared to the subject. The Board has given reduced weight to board of review comparable #3, due to its substantially smaller building size when compared to the subject.

The Board finds the best evidence of assessment equity to be board of review comparables #1, #2 and #4, each of which are relatively similar to the subject in location, story height, exterior construction, age, building size, and some features. The comparables necessitate adjustments for differences in age, building size and/or basement size, when compared to the subject. These best comparables have improvement assessments ranging from \$50,556 to \$54,856 or from \$18.85 to \$20.94 per square foot of gross building area. The subject's improvement assessment of \$45,796 or \$17.40 per square foot of gross building area falls below the best comparables in this record both in terms of overall improvement assessment and on a per-square-foot of building area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
