

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Patricia Considine
DOCKET NO.: 22-51943.001-R-1
PARCEL NO.: 17-29-317-026-0000

The parties of record before the Property Tax Appeal Board are Patricia Considine, the appellant, by Mary Kate Gorman, Attorney at Law, in Tinley Park, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,500
IMPR.: \$13,500
TOTAL: \$25,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family building of frame exterior construction with 1,600 square feet of gross building area and which is approximately 128 years old. Features include a full basement, and 2 full bathrooms. The property has a 2,875 square foot site and is located in Chicago, South Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables along with a typed spreadsheet. The equity comparables are located in the same neighborhood code and from .40 to .86 of a mile from the subject. The comparables consist of class 2-11 two-story buildings of frame exterior construction that are 134 years old. The buildings range in size from 1,848 to 5,066 square feet of gross building area. Features include 2 or 4 full bathrooms, full basements and one comparable has a one-car garage, respectively. The

comparables have improvement assessments ranging from \$9,250 to \$25,560 or from \$4.95 to \$5.05 per square foot of gross building area. Based on this evidence, the appellant requested a reduced improvement assessment of \$8,000 or \$5.00 per square foot of gross building area which represents the average of the comparables.

The board of review submitted its “Board of Review Notes on Appeal” disclosing the total assessment for the subject of \$25,000. The subject property has an improvement assessment of \$13,500 or \$8.44 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code and ¼ of a mile from the subject. The comparables consist of class 2-11 two-story buildings of frame or masonry exterior construction which are 133 or 138 years old. The buildings range in size from 1,368 to 1,512 square feet of gross building area. Each comparable has a full basement, 2 full bathrooms, and a two-car garage. The comparables have improvement assessments ranging from \$13,245 to \$18,400 or from \$8.76 to \$12.47 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject’s assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of seven equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the appellant’s comparables along with board of review comparable #1, due to differing building sizes when compared to the subject.

The Board finds the best evidence of assessment equity are board of review comparables #2, #3 and #4, which are relatively similar to the subject in location, story height, exterior construction, and some features. These comparables differ in age and building size when compared to the subject suggesting adjustments are necessary for differences in these characteristics. Each comparable also has a garage which is not a feature of the subject suggesting downward adjustments would be appropriate for this difference in amenities. The best comparables in the record have improvement assessments ranging from \$13,245 to \$18,400 or from \$8.76 to \$12.47 per square foot of gross building area. The subject's improvement assessment of \$13,500 or \$8.44 per square foot of gross building area falls within the range of the best comparables in this record in terms of overall improvement assessment and below the range on a per-square-foot of gross building area basis despite the fact that the subject is approximately 10 years newer than each of these best comparables but is also larger than the best comparables which supports a lower assessment on a per-square-foot basis due to the principle of the economies of scale.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables in the record for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
