

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: PUI WONG
DOCKET NO.: 22-53284.001-R-1
PARCEL NO.: 17-33-113-002-0000

The parties of record before the Property Tax Appeal Board are PUI WONG, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,880
IMPR.: \$31,314
TOTAL: \$43,194

Subject only to the State multiplier as applicable.

The subject property consists of a two-story, 40-year-old, single-family dwelling of masonry construction with 1,842 square feet of living area. Features of the home include one fireplace, a partial basement and a two-car garage. The property has a 2,700-square-foot site located in Chicago, South Chicago Township, Cook County. The subject is classified as a class 2-07 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The appellant lists the age of the subject as 42 years old. In support of this argument, the appellant submitted information on four equity comparables. The submitted comparable properties were located within a ½ miles radius of the subject and were each improved with a two-story, single-family dwelling of masonry construction. They range in age from 30 to 44 years old; in size from 1,730 to 1,886 square feet of living area; and in improvement assessment from \$14.85 to \$16.38 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$431,940. The subject property has an improvement assessment of \$31,314 or \$17.00 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables. Each of these comparable properties was improved with a two-story, single-family dwelling of masonry construction and located within ¼ miles radius of the subject

property. They range: in age from 31 to 43 years old; in size from 1,900 to 1,940 square feet of living area; and in improvement assessment from \$17.27 to \$19.61 per square foot of living area.

Conclusion of Law

The taxpayer asserts assessment inequity as the basis of the appeal. The Illinois Constitution requires that real estate taxes, “be levied uniformly by valuation ascertained as the General Assembly shall provide by law.” Ill. Const. art. IX, §4 (1970); Walsh v. Property Tax Appeal Board, 181 Ill. 2d 228, 234 (1998). This uniformity provision of the Illinois Constitution does not require absolute equality in taxation, however, and it is sufficient if the taxing authority achieves a reasonable degree of uniformity. Peacock v. Property Tax Appeal Board, 339 Ill. App. 3d 1060, 1070 (4th Dist. 2003).

When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e); Walsh, 181 Ill. 2d at 234 (1998). Clear and convincing evidence means more than a preponderance of the evidence, but it does not need to approach the degree of proof needed for a conviction of a crime. Bazyldo v. Volant, 164 Ill. 2d 207, 213 (1995). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin. Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the board of review’s comparables #1 and #2 and the appellant’s comparables #1 and #2. These comparables ranged in improvement assessment of \$14.85 to \$19.61 per square foot of living area. The subject's improvement assessment of \$17.00 per square foot of living area falls within the range established by the best comparables in this record. These comparables were selected due to similarities in living area square footage, number of stories, age, construction type, and/or location. After considering all the comparable properties submitted by the parties with emphasis on those properties that are more proximate in location and with similar features relative to the subject and after further considering adjustments to the best comparable properties for differences from the subject, the Board finds the subject’s improvement assessment is supported. The Board finds that the appellant did not demonstrate by clear and convincing evidence that the subject was inequitably assessed and, therefore, a reduction in the subject’s assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
