

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Andrea White
DOCKET NO.: 22-54444.001-R-1
PARCEL NO.: 04-25-100-130-0000

The parties of record before the Property Tax Appeal Board are Andrea White, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,500
IMPR.: \$47,084
TOTAL: \$57,584

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of frame exterior construction with 2,066 square feet of living area. The dwelling is approximately 69 years old. Features of the home include central air conditioning, a fireplace and a 2-car garage.¹ The property has a 10,500 square foot site and is located in Glenview, Northfield Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

¹ The parties differ regarding the subject's foundation type. In the grid analyses, the appellant indicated the subject has a full basement with an apartment whereas the board of review indicated the subject has a slab foundation.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five comparables² that are located within the same assessment neighborhood as the subject property. The comparables consist of class 2-04, 1-story or 1½-story dwellings of frame, masonry or frame and masonry exterior construction ranging in size from 2,475 to 3,202 square feet of living area. The dwellings are 51 to 70 years old. Each comparable has a full unfinished basement, 1 or 2 fireplaces and either a 2-car or a 3-car garage. Four comparables each have central air conditioning. The comparables have improvement assessments ranging from \$37,932 to \$50,440 or from \$15.33 to \$16.17 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$32,539.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject property of \$57,584. The subject property has an improvement assessment of \$47,084 or \$22.79 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables that are located within the same assessment neighborhood and the same block as the subject property. The comparables consist of class 2-04, 1-story dwellings of masonry or frame and masonry exterior construction ranging in size from 1,881 to 4,143 square feet of living area. The comparables are 48 to 67 years old. Each comparable has a partial or full basement with two having finished area, 1 or 2 fireplaces and either a 2-car or a 3-car garage. Three comparables each have central air conditioning. The comparables have improvement assessments ranging from \$44,120 to \$100,122 or from \$23.46 to \$30.35 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board gives less weight to the appellant's comparables #2, #3, #4 and #5 as well as the board of review comparables #1, #2 and #3 which are less similar to the subject in story height and/or dwelling size than the other comparables in the record.

The Board gives more weight to the appellant's comparable #1 and board of review comparable #4 which have the same assessment neighborhood and classification codes as the subject and are 1-story dwellings more similar to the subject in age and dwelling size. However, adjustments are

² Some of the comparables' property characteristics not found in the appellant's grid analysis were drawn from the property characteristics printouts provided by the appellant.

still required for varying degrees of similarity in features to the subject, such as differences in central air conditioning and/or garage amenities. These two comparables have improvement assessments of \$37,932 and \$44,120 or \$15.33 and \$23.46 per square foot of living area. The subject's improvement assessment of \$47,084 or \$22.79 per square foot of living area falls above these two most similar comparables in terms of an overall basis but is bracketed by them on a per-square-foot basis. Based on this record and after considering adjustments to the two most similar comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
