

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mary Kramer
DOCKET NO.: 22-54493.001-R-1
PARCEL NO.: 04-34-202-080-0000

The parties of record before the Property Tax Appeal Board are Mary Kramer, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$19,728
IMPR.: \$45,809
TOTAL: \$65,537

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of frame and masonry exterior construction with 1,613 square feet of living area. The dwelling is approximately 65 years old. Features of the home include an unfinished basement, central air conditioning, a fireplace and a 2-car garage. The property has a 12,330 square foot site and is located in Glenview, Northfield Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five comparables that are located within the same assessment neighborhood as the subject property. According to the property characteristics printouts, the comparables consist of class 2-03, 1-story or 1.5-story dwellings of frame or masonry exterior construction ranging in size from 1,590 to 1,679 square

feet of living area. The dwellings are 71 to 165 years old. Four comparables each have a basement with finished area, and one comparable has a slab foundation. Two comparables each have central air conditioning, four comparables each have a fireplace, and three comparables have either a 1-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$12,500 to \$16,000 or from \$7.86 to \$10.03 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$14,275 or \$8.85 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject property of \$65,537. The subject property has an improvement assessment of \$45,809 or \$28.40 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables that are located within the same assessment neighborhood and block as the subject property. The comparables consist of class 2-03, 1-story dwellings of frame and masonry exterior construction ranging in size from 1,329 to 1,518 square feet of living area. The comparables are 65 to 68 years old. Each comparable has a basement with two having finished area and a 2-car garage. Three comparables each have central air conditioning and 1 or 2 fireplaces. The comparables have improvement assessments ranging from \$42,687 to \$54,190 or from \$29.92 to \$36.79 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board gives less weight to the appellant's comparables and the board of review comparables #2 and #3 which differ significantly from the subject in design, age, and/or foundation type or lack a basement finish. Additionally, four of these comparables also lack central air conditioning and/or a garage amenity, which are both features of the subject dwelling.

The Board finds the best evidence of assessment equity to be the board of review's comparables #1 and #4. Although these comparables have somewhat smaller dwelling sizes than the subject, they are overall most similar to the subject in design, age, unfinished basement, and other features. These two comparables have improvement assessments of \$42,687 and \$48,324 or \$32.12 and \$33.03 per square foot of living area, respectively. The subject's improvement assessment of \$45,809 or \$28.40 per square foot of living area is bracketed by the two best comparables in this record in terms of an overall improvement assessment basis and below on a per-square-foot basis. After considering adjustments to the best comparables for differences

when compared to the subject, the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
