

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Travis Colvin
DOCKET NO.: 22-54883.001-R-1
PARCEL NO.: 18-05-311-024-0000

The parties of record before the Property Tax Appeal Board are Travis Colvin, the appellant, by attorney Brian P. Liston of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,748
IMPR.: \$70,900
TOTAL: \$75,648

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 3,088 square feet of living area. The dwelling is approximately 23 years old. The home features a full unfinished basement, 2½ bathrooms, central air conditioning, a fireplace and a 2-car garage. The property has a 6,550 square foot site and is located in Western Springs, Lyons Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located either .1 or .2 of a mile from the subject property, one of which is also along the same street as the subject. The comparables are improved with

two-story dwellings of frame and masonry exterior construction ranging in size from 3,106 to 3,504 square feet of living area. The dwellings are from 15 to 29 years old. One comparable has a concrete slab foundation and two comparables each have a full basement. No data was provided by the appellant concerning basement finish, if any, of the comparables. Each comparable has either 2½, 3 or 4½ bathrooms, central air conditioning, one or two fireplaces and a 2-car garage. The comparables have improvement assessments that range from \$68,792 to \$75,116 or from \$21.08 to \$22.27 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$66,207 or \$21.44 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$75,648. The subject property has an improvement assessment of \$70,900 or \$22.96 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located within the same block as the subject or approximately ¼ of a mile from the subject, three of which are also along the same street as the subject property. The comparables are improved with two-story dwellings of frame or masonry exterior construction ranging in size from 2,482 to 2,960 square feet of living area. The dwellings are from 7 to 19 years old. The comparables each have a full basement, two of which are finished with a formal recreation room. Each comparable has either 2½, 3½ or 4½ bathrooms, central air conditioning and a 2-car or a 2.5-car garage. Three comparables each have one or two fireplaces. The comparables have improvement assessments that range from \$65,783 to \$75,224 or from \$23.86 to \$26.59 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #2 and #3 due to their larger dwelling size or dissimilar concrete slab foundation, when compared to the subject's basement foundation. The Board has given reduced weight to board of review comparables #2 and #3 due to their newer dwelling ages and/or smaller dwelling size, when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparable #1, along with the board of review comparables #1 and #4, which are similar to the subject in location and overall, more similar to the subject in dwelling in size, design, foundation type, age

and some features. These three comparables have improvement assessments that range from \$65,783 to \$70,585 or from \$21.08 to \$23.87 per square foot of living area. The subject's improvement assessment of \$70,900 or \$22.96 per square foot of living area falls somewhat above the range established by the best comparables in the record in terms of total improvement assessment but within the range on a per square foot basis. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed. Based on this evidence, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
