

FINAL ADMINISTRATIVE DECISION ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Virgil L. & JA Williams

DOCKET NO.: 22-54956.001-R-1 PARCEL NO.: 14-33-420-047-0000

The parties of record before the Property Tax Appeal Board are Virgil L. & JA Williams, the appellants, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds *No Change* in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$21,287 **IMPR.:** \$61,712 **TOTAL:** \$82,999

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story multi-family building of masonry exterior construction with 2,254 square feet of building area that was built in 1974 and is approximately 48 years old. Features of the building include a concrete slab foundation, central air conditioning and two fireplaces. The property has an approximately 1,703 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellants submitted information on three equity comparables located in the same assessment neighborhood code and from 1.10 to 1.30 miles from the subject property. The comparables are improved with 2-story class 2-11 buildings of masonry exterior construction ranging in size from 2,578 to 2,965 square feet of building area.

The buildings range in age from 41 to 43 years old. Each comparable has a full basement, 1 central air conditioning, one or two fireplaces and a 1-car garage. The comparables have improvement assessments ranging from \$66,720 to \$74,718 or from \$24.00 to \$25.98 per square foot of building area. Based on this evidence, the appellants requested the subject's improvement assessment be reduced to \$56,485 or \$25.06 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$82,999. The subject property has an improvement assessment of \$61,712 or \$27.38 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same assessment neighborhood code on the same block or within ¼ of a mile from the subject property. The comparables are improved with 2-story class 2-11 buildings of frame or masonry exterior construction ranging in size from 1,611 to 3,080 square feet of building area. The buildings range in age from 123 to 136 years old. Each comparable has a basement, one of which is finished with an apartment. Each property has from a 1-car to a 3-car garage and one comparable has central air conditioning. The comparables have improvement assessments ranging from \$63,800 to \$101,725 or from \$29.99 to \$39.60 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellants contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven equity comparables for the Board's consideration. The Board finds the appellants' comparables are located more than one mile from the subject while each of the board of review's comparables are substantially older in age when compared to the subject. Furthermore, both parties' comparables have basement foundations and garages which the subject property lacks. Nevertheless, the Board gives less weight to appellants' comparables #1 and #2 along with board of review comparables #3 and #4 which are less similar to the subject in building size.

On this limited record, the Board finds the best evidence of assessment equity to be appellants comparable #3 and board of review comparables #1 and #2 which are more similar to the subject in building size. However, these properties present varying degrees of similarity to the subject in location, age, foundation type, garage capacity and other features, suggesting adjustments are needed to make these properties more equivalent to the subject. These best comparables have improvement assessments ranging from \$66,988 to \$77,800 or from \$25.98 to \$36.19 per square foot of building area. The subject's improvement assessment of \$61,712 or \$27.38 per square

¹ The appellants failed to disclose if the comparable basements are finished or unfinished.

foot of building area falls below the range established by the best comparables in this record on an overall improvement assessment basis and within the range on a per square foot basis. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
