

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: The Waldron Family Revocable Trust
DOCKET NO.: 22-55074.001-R-1
PARCEL NO.: 04-29-100-067-0000

The parties of record before the Property Tax Appeal Board are The Waldron Family Revocable Trust, the appellant, by attorney Dimitrios Trivizas, of Dimitrios P. Trivizas, Ltd. in Skokie; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$33,999
IMPR.: \$34,000
TOTAL: \$67,999

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of masonry exterior construction with 2,772 square feet of living area. The dwelling is approximately 39 years old. Features of the home include a basement with finished area, central air conditioning, two fireplaces, and a 3.5-car garage. The property has a 42,875 square foot site and is located in Northbrook, Northfield Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables located within the same assessment neighborhood code as the subject and from 0.1 of a mile to 1.7 miles from the subject. The comparables are improved with 1-story, class 2-04 homes of masonry or frame and masonry exterior construction ranging in size from 2,383 to

3,257 square feet of living area. The dwellings range in age from 57 to 65 years old. Two homes have a basement and one home has a crawl space foundation. Two homes have central air conditioning. Each home has one or two fireplaces and a 2-car garage. The comparables have improvement assessments ranging from \$27,000 to \$35,190 or from \$10.80 to \$11.44 per square foot of living area.

The appellant presented the final decision of the board of review disclosing the total assessment for the subject of \$67,999. The appellant reported the subject property has an improvement assessment of \$34,000 or \$12.27 per square foot of living area.

Based on this evidence the appellant requested a reduction in the subject's improvement assessment to \$31,018.

The board of review submitted its "Board of Review Notes on Appeal." In support of its contention of the correct assessment the board of review submitted information on four equity comparables, two of which are located in the same assessment neighborhood code as the subject. The board of review reported two comparables are located in the subject's "subarea" but did not report the distance of these comparables in relation to the subject. The comparables are improved with 1-story or 1.5-story, class 2-04 homes of frame, masonry, or frame and masonry exterior construction ranging in size from 2,090 to 5,749 square feet of living area. The dwellings range in age from 22 to 56 years old. Each home has a basement, two of which have finished area, one to four fireplaces, and a 2-car or a 3-car garage. Three homes have central air conditioning. The comparables have improvement assessments ranging from \$34,500 to \$86,000 or from \$14.96 to \$17.05 per square foot of living area. Based on this evidence the board of review requested the subject's assessment be sustained.

In written rebuttal, the appellant argued the board of review's comparables are not sufficient evidence of assessment equity.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of seven equity comparables for the Board's consideration. The Board gives less weight to the board of review's comparables #3 and #4 which are located in different assessment neighborhood codes than the subject and for which no proximity to the subject was provided by the board of review. Moreover, the board of review's comparable #4 is a substantially larger home than the subject. The Board also gives less weight to the board of review's comparables #1 and #2, due to substantial differences from the subject in dwelling size and/or design.

The Board finds the best evidence of assessment equity to be the appellant's comparables, which are located in the same assessment neighborhood code as the subject and are more similar to the subject in design, dwelling size, and some features. However, these comparables are much older homes than the subject with smaller garages than the subject, one comparable has a crawl space foundation compared to the subject's basement, and one comparable lacks central air conditioning that is a feature of the subject, suggesting upward adjustments to these comparables would be needed to make them more equivalent to the subject. These comparables have improvement assessments that range from \$27,000 to \$35,190 or from \$10.80 to \$11.44 per square foot of living area. The subject's improvement assessment of \$34,000 or \$12.27 per square foot of living area falls within the range established by the best comparables in terms of total improvement assessment and above the range on a per square foot basis. Based on this record and after considering appropriate adjustments to the best comparables for differences from the subject, such as their considerably older ages than the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
