

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Nicole & Domenic Fosco
DOCKET NO.: 22-55315.001-R-1
PARCEL NO.: 04-21-410-002-0000

The parties of record before the Property Tax Appeal Board are Nicole & Domenic Fosco, the appellants, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,560
IMPR.: \$47,403
TOTAL: \$61,963

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and masonry exterior construction with 2,847 square feet of living area. The home is approximately 38 years old. Features include a full basement, central air conditioning, one fireplace, and a 2-car garage. The property has a 10,400 square foot site and is located in Glenview, Northfield Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellants submitted information, including property characteristics and appeal history printouts, on three equity comparables that are within the subject's assessment neighborhood code. The comparables are improved with class 2-78 dwellings of frame and masonry exterior construction ranging in size from 2,668 to 3,055 square

feet of living area. The homes are either 37 or 45 years old. Each comparable has a full basement, central air conditioning, one fireplace, and a 2-car garage. The comparables have improvement assessments ranging from \$41,381 to \$47,780 or from \$15.51 to \$15.64 per square foot of living area. Based on this evidence, the appellants requested that the improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$61,963. The subject property has an improvement assessment of \$47,403 or \$16.65 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the subject's assessment neighborhood code. The comparables are improved with 2-story, class 2-78 dwellings of frame and masonry exterior construction ranging in size from 2,720 to 3,256 square feet of living area. The homes are either 37 or 38 years old. Each comparable has a full basement, central air conditioning, one fireplace, and a 2-car garage. The comparables have improvement assessments ranging from \$47,091 to \$57,509 or from \$17.30 to \$18.18 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellants contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested equity comparables for the Board's consideration. The Board gives less weight to board of review comparable #4 which differs substantially from the subject in dwelling size.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables which have the same property classification, design, and assessment neighborhood code as the subject property. These comparables are similar to the subject in age, dwelling size, and other features. These comparables have improvement assessments ranging from \$41,381 to \$49,440 or from \$15.51 to \$18.18 per square foot of living area. The subject's improvement assessment of \$47,403 or \$16.65 per square foot of living area falls within the range established by the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
