

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Shalini Parekh/Rudrum, Inc.
DOCKET NO.: 22-55862.001-R-1
PARCEL NO.: 14-32-407-086-0000

The parties of record before the Property Tax Appeal Board are Shalini Parekh/Rudrum, Inc., the appellant, by attorney Kelly J. Keeling of KBC Law Group in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$42,575
IMPR.: \$142,872
TOTAL: \$185,447

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story mixed-use building of masonry exterior construction with 6,768 square feet of gross building area. The building is approximately 103 years old. The building features a partial unfinished basement and 3½ bathrooms.¹ The property has a 3,406 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that have the same assessment neighborhood code and property classification code

¹ The board of review disclosed the subject building has an additional half bathroom, which was not refuted by the appellant.

as the subject. The comparables are located from .25 to .45 of a mile from the subject property. The comparables are improved with three-story mixed-use buildings of masonry exterior construction ranging in size from 7,251 to 11,250 square feet of gross building area. The buildings are from 130 to 141 years old. The comparables each have a partial basement. No data was provided by the appellant concerning basement finish, if any, for the comparables. Each comparable has either 2 or 5 bathrooms, three comparables have central air conditioning and one comparable has a 3.5-car garage. The comparables have improvement assessments that range from \$126,167 to \$168,189 or from \$14.94 to \$17.50 per square foot of gross building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$109,642 or \$16.20 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal." The appellant submitted a copy of the Cook County Board of Review final decision disclosing the total assessment for the subject of \$185,447. The subject property has an improvement assessment of \$142,872 or \$21.11 per square foot of gross building area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located within the subject's subarea. The comparables are improved with three-story mixed-use buildings of masonry exterior construction ranging in size from 5,229 to 6,693 square feet of gross building area. The buildings are from 115 to 130 years old. The comparables each have a partial unfinished basement and either 3½ or 5½ bathrooms. Three comparables each have a 1.5-car or a 2-car garage. The comparables have improvement assessments that range from \$105,938 to \$143,125 or from \$20.17 to \$21.56 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #1, #2 and #4, as well as board of review comparables #2, #3 and #4 which differ from the subject building in size and/or they have central air conditioning, not a feature of the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparable #3 and board of review comparable #1, which have the same assessment neighborhood code and property classification code as the subject. The comparables are overall more similar to the subject building in size and design. However, the Board finds each building is either 27 or 31

years older than the subject and/or have a fewer number of bathrooms when compared to the subject, suggesting upward adjustments for these differences would be required to make the comparables more equivalent to the subject. Likewise, each comparable has a garage, unlike the subject, suggesting downward adjustments for this difference would be necessary. Nevertheless, these two comparables have improvement assessments of \$126,167 and \$143,125 or \$17.40 and \$21.38 per square foot of gross building area, respectively. The subject's improvement assessment of \$142,872 or \$21.11 per square foot of gross building area is bracketed by the two best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
