

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Arthur and Patricia Dolins
DOCKET NO.: 22-57184.001-R-1
PARCEL NO.: 04-16-200-013-0000

The parties of record before the Property Tax Appeal Board are Arthur and Patricia Dolins, the appellants, by attorney David R. Bass, of Field and Goldberg, LLC, in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$26,000
IMPR.: \$155,294
TOTAL: \$181,294

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 7,402 square feet of living area and which is approximately 13 years old. Features include a full basement, central air conditioning, 4 full bathrooms, 2 half-baths, a fireplace, and a three-car garage. The property has a 20,000 square foot site and is located in Northbrook, Northfield Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables located in the same neighborhood code as the subject and within .2 of a mile from the subject. The comparables consist of class 2-09 two-story dwellings of masonry exterior construction which range in age from 16 to 20 years old. The dwellings range in size from 7,197

to 8,638 square feet of living area. Features include a full basement, 3, 4 or 5 bathrooms, central air conditioning, two fireplaces, and either a three-car or a four-car garage. The comparables have improvement assessments ranging from \$129,955 to \$168,960 or from \$15.04 to \$20.29 per square foot of living area.

Based on this evidence, the appellants requested a reduced improvement assessment of \$137,085 or \$18.52 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$181,294. The subject property has an improvement assessment of \$155,294 or \$20.98 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables, one of which was located in the same neighborhood code as the subject and ¼ of a mile from the subject. The comparables consist of class 2-09 two-story dwellings of masonry exterior construction which range in age from 10 to 16 years old. The dwellings range in size from 7,014 to 7,292 square feet of living area. Each comparable has a full or partial basement, central air conditioning, 5 or 6 full bathrooms, 1 or 2 half-baths, two or three fireplaces, and a three-car or a four-car garage. The comparables have improvement assessments ranging from \$147,653 to \$168,720 or from \$21.05 to \$23.19 per square foot of living area.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayers contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of seven suggested equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the appellants' comparables #1 and #2, due to substantially larger dwelling sizes when compared to the subject.

The Board finds the best evidence of assessment equity consists of appellants' comparable #3 along with the board of review comparables, which present various similarities to the subject in location, classification, and some features. Adjustments for variations in bathroom count, age, dwelling size, fireplace count, and/or garage capacity are necessary to make the comparables more equivalent to the subject property. The best comparables have improvement assessments ranging from \$146,000 to \$168,720 or from \$20.29 to \$23.19 per square foot of living area. The subject's improvement assessment of \$155,294 or \$20.98 per square foot of living area is within

the range of the best comparables both in terms of overall improvement assessment and on a per-square-foot of living area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject, the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
