

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Panozzo
DOCKET NO.: 22-59065.001-R-1
PARCEL NO.: 14-17-104-019-0000

The parties of record before the Property Tax Appeal Board are David Panozzo, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***No Change*** assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$46,170
IMPR.: \$55,613
TOTAL: \$101,783

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a 2021 tax year final administrative decision of the Property Tax Appeal Board pursuant to section 16-185 of the Property Tax Code (35 ILCS 200/16-185) in order to challenge the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story, multi-family building of masonry exterior construction with 5,775 square feet of gross building area. The building is approximately 106 years old. Features of the building include a full basement and a 3-car garage. The property has a 7,695 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant filed a direct appeal contending assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted five equity comparables located within the subject's assessment neighborhood. The comparables are improved with 3-story, class 2-11 multi-family buildings of masonry exterior construction ranging in size from 5,229 to 6,156 square feet of gross building area. The buildings range in age from

107 to 126 years old. Each comparable has a full basement. Four comparables each have a 2-car or a 3.5-car garage. The comparables have improvement assessments ranging from \$39,000 to \$49,200 or from \$7.46 to \$8.19 per square foot of gross building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$101,783. The subject property has an improvement assessment of \$55,613 or \$9.63 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the subject's assessment neighborhood. The comparables are improved with 3-story, class 2-11 multi-family buildings of masonry exterior construction ranging in size from 4,746 to 6,819 square feet of gross building area. The buildings range in age from 109 to 113 years old. Each comparable has a full basement. Two comparables each have central air conditioning. One comparable has three fireplaces. Three comparables each have a 3-car garage. The comparables have improvement assessments ranging from \$43,928 to \$71,020 or from \$8.72 to \$10.42 per square foot of gross building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #2 as well as board of review comparables #2 and #4 which are less similar to the subject in dwelling size than the other comparables in this record and/or lack a garage, which the subject features.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables which are similar to subject in design/class, age, and dwelling size with varying degrees of similarity in other features. The best comparables have improvement assessments ranging from \$39,000 to \$55,259 or from \$7.46 to \$10.08 per square foot of gross building area. The subject's improvement assessment of \$55,613 or \$9.63 per square foot of gross building area falls above the range established by the best comparables in this record and within the range on a per square foot basis. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
