

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jim Rolfe
DOCKET NO.: 23-00132.001-R-1
PARCEL NO.: 16-23-418-032

The parties of record before the Property Tax Appeal Board are Jim Rolfe, the appellant, by attorney Abby L. Strauss, of Schiller Law P.C. in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds No Change in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$133,515
IMPR.: \$343,599
TOTAL: \$477,114

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of stucco exterior construction with 4,567 square feet of living area. The dwelling was built in 1997 and is approximately 38 years old. Features of the home include a basement with finished area, central air conditioning, one fireplace, and a garage with 550 square feet of building area. The property has an approximately 21,759 square foot site and is located in Highland Park, Moraine Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three suggested equity comparables that are in the same assessment neighborhood code as the subject property. The comparables are improved with 2-story dwellings of either brick or wood siding exterior construction ranging in size from 3,895 to 4,597 square feet of living area that were built from 1961 to 1987. Each comparable has an unfinished basement, central air conditioning, from one to four fireplaces and a garage ranging in size from 600 to 726 square feet of building area. The comparables have improvement assessments ranging from \$214,453 to \$271,210 or from \$52.47 to \$67.96 per square

foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$273,152 or \$59.81 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$477,114. The subject property has an improvement assessment of \$343,599 or \$75.24 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four suggested equity comparables that are in the same assessment neighborhood code as the subject property. The comparables are improved with 2-story dwellings of either brick or wood siding exterior construction ranging in size from 3,756 to 4,970 square feet of living area that range in age from 32 to 52 years old. Each comparable has a basement with finished area, central air conditioning, either one or two fireplaces and a garage ranging in size from 546 to 888 square feet of building area. The comparables have improvement assessments ranging from \$289,187 to \$373,929 or from \$75.24 to \$79.03 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board has given less weight to the appellant's comparables as well as board of review comparables #1 and #2 due to their substantial differences from the subject in dwelling size and/or age.

The Board finds the best evidence of assessment equity to be board of review comparables #3 and #4. The Board finds that these two comparables are most similar to the subject in location, design, age, dwelling size and features. These two most similar comparables have improvement assessments of \$363,878 and \$373,929 or \$75.24 and \$75.45 per square foot of living area. The subject property has an improvement assessment of \$343,599 or \$75.242 per square foot of living area, which is bracketed by the two best comparables in this record on an overall improvement assessment and at the low end on a per square foot. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitably assessed and a reduction in the assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
