

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Richard Babjak
DOCKET NO.: 23-00229.001-R-1
PARCEL NO.: 15-23-301-114

The parties of record before the Property Tax Appeal Board are Richard Babjak, the appellant, by attorney Gregory Riggs, of Tax Appeals Lake County in Lake Zurich; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$48,417
IMPR.: \$189,783
TOTAL: \$238,200

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of brick and frame exterior construction with 3,022 square feet of living area. The dwelling was constructed in 2020. Features of the home include a concrete slab foundation, central air conditioning, and a 400 square foot garage. The property has a 4,060 square foot site and is located in Lincolnshire, Vernon Township, Lake County.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located within .09 of a mile from the subject. Each comparable is a 2-story dwelling of frame or brick and frame exterior construction containing 3,022 square feet of living area and were built from 2019 to 2021. Features include a concrete slab foundation, central air conditioning, and a 400 square foot garage. The comparables have improvement assessments

ranging from \$140,805 to \$151,614 or from \$46.59 to \$50.17 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$238,200. The subject property has an improvement assessment of \$189,783 or \$62.80 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on five equity comparables located within .09 of a mile from the subject. Each comparable is a 2-story dwelling of frame or brick and frame exterior construction containing 3,022 square feet of living area and was built in 2020 or 2021. Features include a concrete slab foundation, central air conditioning, and a 400 square foot garage. The comparables have improvement assessments ranging of \$189,533 and \$190,071 or \$62.72 and \$62.90 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's improvement assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the parties submitted eight equity comparables that are identical or nearly identical to the subject in location, style, age, dwelling size, and features. These comparables have improvement assessments that range from \$140,805 to \$190,071 or from \$46.59 to \$62.90 per square foot of living area. The subject's improvement assessment of \$189,783 or \$62.80 per square foot of living area falls within the range established by the comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence presented.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
