

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Roger Bartos
DOCKET NO.: 23-02031.001-R-1
PARCEL NO.: 15-20-301-047

The parties of record before the Property Tax Appeal Board are Roger Bartos, the appellant, and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$49,927
IMPR.: \$197,990
TOTAL: \$247,917

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame exterior construction with 4,023 square feet of living area. The dwelling was constructed in 1997 and is 26 years old. Features of the home include a basement with finished area, central air conditioning, a fireplace and a 756 square foot garage. The property has a 17,860 square foot site and is located in Buffalo Grove, Vernon Township, Lake County.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with 2-story dwellings of frame or brick exterior construction ranging in size from 3,738 to 4,496 square feet of living area. The dwellings are 25 or 27 years old and have basements with finished area. Each comparable has central air conditioning, one fireplace, and a garage ranging in size from 660 to 714 square feet of building area. The comparables have

improvement assessments ranging from \$166,328 to \$187,311 or from \$41.34 to \$44.50 per square foot of living area. Based on this evidence the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$247,917. The subject property has an improvement assessment of \$197,990 or \$49.21 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with 2-story dwellings of frame exterior construction ranging in size from 3,590 to 4,474 square feet of living area. The dwellings were constructed in 1995 or 1997 and have basements, two of which have finished area. Each comparable has central air conditioning, one or two fireplaces and a garage ranging in size from 660 to 714 square feet of building area. The comparables have improvement assessments ranging from \$185,965 to \$227,883 or from \$49.17 to \$51.80 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight equity comparables for the Board's consideration that are relatively similar to the subject in location, age, dwelling size and most features. However, board of review comparables #2 and #3 are reported to have unfinished basements, suggesting upward adjustments are necessary to make them more equivalent to the subject. The eight comparables have improvement assessments ranging from \$166,328 to \$227,883 or from \$41.34 to \$51.80 per square foot of living area. The subject's improvement assessment of \$197,990 or \$49.21 per square foot of living area falls within the range established by the comparables in the record. Based on this evidence and after considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
