

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John McConville  
DOCKET NO.: 23-20426.001-R-1  
PARCEL NO.: 16-05-318-024-0000

The parties of record before the Property Tax Appeal Board are John McConville, the appellant(s), by attorney Jeremy Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$11,115  
**IMPR.:** \$72,885  
**TOTAL:** \$84,000

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 27-year-old, two-story dwelling of masonry construction with 3,372 square feet of living area. Features of the home include a full basement, central air conditioning, and a four-car garage. The property has an 8,550 square foot site and is located in Oak Park, Oak Park Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant asserts assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables with varying degrees of similarity to the subject property. The suggested comparable properties range in size from 2,970 to 3,608 square feet of living area and range in age from 31 to 61 years old. The appellant reported that the suggested comparables were located between 1 to 1.5 miles from the subject property. The comparables have improvement assessments ranging from \$19.08 to \$20.45 per

square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's total assessment to \$77,341.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject as \$84,000. The subject property has an improvement assessment of \$72,885 or \$21.61 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with varying degrees of similarity to the subject property. The suggested comparable properties ranged in size from 2,418 to 2,980 square feet of living area. Each suggested comparable had a full basement and central air conditioning. The board of review reported that three of the suggested comparables were located within a quarter mile of the subject property and one comparable was located in the same subarea as the subject property. The comparables range in age from 7 to 22 years old. The comparables have improvement assessments ranging from \$23.02 to \$27.24 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds that the best evidence of assessment equity from this record is the board of review's suggested comparables #2 and #4. Like the subject property, both comparables have a two-story, class 2-78, single-family dwelling with a full basement and central air conditioning. These comparables are the only properties similar to the subject property in living area size and close proximity. In comparison, appellant's comparables #1 through #3 are a mile or more away from the subject property and have additional differences in features. The board of review comparables #1 and #3 are considerably smaller dwellings with additional differences in features. Based on this record, the Board finds that the appellant did not demonstrate with clear and convincing evidence that the subject was inequitably assessed, and a reduction in the subject's assessment on this basis is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
