

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: James Distasio
DOCKET NO.: 23-20499.001-R-1
PARCEL NO.: 16-32-116-005-0000

The parties of record before the Property Tax Appeal Board are James Distasio, the appellant, by attorney Dora Cornelio of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,392
IMPR.: \$12,607
TOTAL: \$15,999

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of frame exterior construction with 985 square feet of living area. The dwelling is approximately 68 years old. The home features one full bathroom.¹ The property has a 3,156 square foot site and is located in Cicero, Cicero Township, Cook County. The subject is classified as a class 2-02 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables that have the same assessment neighborhood code as the subject, one of which is located along the same street as the subject property. The comparables are class 2-02 properties

¹ The parties differ as to the description of the subject dwelling's foundation. The appellant reported the dwelling with a full basement, while the board of review reported the dwelling with a crawl space foundation.

that are improved with one-story dwellings of masonry exterior construction ranging in size from 937 to 984 square feet of living area. The dwellings range in age from 64 to 73 years old. The comparables each have a full basement, two of which have finished area. Each comparable has central air conditioning, one full bathroom and a two-car garage. The comparables have improvement assessments that range from \$1,394 to \$3,759 or from \$1.49 to \$3.91 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$2,088 or \$2.12 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$15,999. The subject property has an improvement assessment of \$12,607 or \$12.80 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code as the subject and are located approximately ¼ of a mile from the subject, two of which are also along the same street as the subject property. The comparables are class 2-02 properties that are improved with one-story dwellings of frame or masonry exterior construction ranging in size from 784 to 950 square feet of living area. The dwellings are from 66 to 93 years old. The comparables each have a full basement, central air conditioning and one full bathroom. One comparable has an additional half bathroom and three comparables each have a one-car to a two-car garage. The comparables have improvement assessments that range from \$12,227 to \$16,613 or from \$15.60 to \$18.68 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven comparable properties for the Board's consideration. The Board has given less weight to board of review comparable #4 due to its older dwelling age when compared to the subject.

The Board finds the appellant's comparables and board of review comparables #1, #2 and #3 are similar to the subject in location, dwelling size, design and age. However, the Board finds one comparable has an additional half bathroom and each comparable has central air conditioning and a garage, unlike the subject, suggesting downward adjustments would be required to make the comparables more equivalent to the subject. Nevertheless, these six comparables have improvement assessments ranging from \$1,394 to \$16,613 or from \$1.49 to \$18.68 per square foot of living area. The subject's improvement assessment of \$12,607 or \$12.80 per square foot of living area falls within the range established by the best comparables in the record both in

terms of overall improvement assessment and on a per square foot of living area basis. After considering adjustments to the best comparables for differences from the subject, the Board finds the subject's assessment is supported.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence presented.

Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
