

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Corey Perry
DOCKET NO.: 23-20538.001-R-1
PARCEL NO.: 15-01-408-005-0000

The parties of record before the Property Tax Appeal Board are Corey Perry, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,536
IMPR.: \$77,911
TOTAL: \$91,447

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 3,927 square feet of living area. The dwelling is approximately 97 years old. Features of the home include a full/partial basement, central air conditioning, two fireplaces and a 2-car garage. The property has an 11,280 square foot site and is located in River Forest, River Forest Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are class 2-06 properties improved with 2-story dwellings of masonry exterior construction ranging in size from 3,819 to 4,240 square feet of living area. The dwellings are 93 to 101 years old and have full basements

with finished area. Three comparables have central air conditioning. Each comparable has one to three fireplaces and a 2-car or a 3-car garage. The comparables have improvement assessments ranging from \$49,920 to \$77,720 or from \$11.77 to \$19.94 per square foot of living area. Based on this evidence the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$108,216. The subject property has an improvement assessment of \$94,680 or \$24.11 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject and located on the same block or within a 1/4 of a mile from the subject. The comparables are class 2-06 properties improved with 2-story dwellings of masonry exterior construction ranging in size from 2,986 to 3,368 square feet of living area. The homes are 99 or 102 years old and have full basements, three with finished area. The comparables each have central air conditioning, one or two fireplaces and a 2-car or a 4-car garage. The comparables have improvement assessments ranging from \$82,464 to \$101,478 or from \$26.72 to \$30.13 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains eight suggested comparables for the Board's consideration with the same neighborhood code and property classification code as the subject. The Board gives less weight to appellant's comparable #2 which is an outlier due to its considerably lower improvement assessment than the other comparables in the record. The Board gives less weight to the board of review comparables due to differences in dwelling size when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables which overall are more similar to the subject in dwelling size, age and features. These comparables have improvement assessments ranging from \$70,544 to \$77,720 or from \$18.47 to \$19.94 per square foot of living area. The subject's improvement assessment of \$94,680 or \$24.11 per square foot of living area falls above the range established best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment commensurate with the appellant's request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
