

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Margaret Navin
DOCKET NO.: 23-20626.001-R-1
PARCEL NO.: 15-12-110-057-0000

The parties of record before the Property Tax Appeal Board are Margaret Navin, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,860
IMPR.: \$52,140
TOTAL: \$55,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 1,956 square feet of living area. The dwelling is approximately 28 years old. Features of the home include a full basement with finished area, central air conditioning, one fireplace, and a 2-car garage. The property has a 1,956 square foot site and is located in River Forest, River Forest Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables, three of which are located within the subject's assessment neighborhood. One of the three comparables is located on subject's street. The comparables are composed of class 2-95 two-story dwellings of masonry exterior construction, ranging in size from 2,173 to 2,693

square feet of living area. The homes are approximately 20 to 34 years old. Each property has full basement with finished area, and a 2-car garage. Four comparables feature central air conditioning, and three comparables each have one fireplace. The comparables have improvement assessments that range from \$46,579 to \$58,020 or from \$21.44 to \$22.49 per square feet of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$42,132 or \$21.54 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$55,000. The subject property has an improvement assessment of \$52,140 or \$26.66 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on three equity comparables located on the subject's block, same street and within the subject's assessment neighborhood. The comparables are composed of class 2-95. two-story dwellings of masonry exterior construction of 1,956 or 2,126 square feet of living area. The comparables are approximately 27 to 29 years old. Each comparable has a full basement with finished area, central air conditioning, one fireplace, and a 2-car garage. The comparables have improvement assessments of \$52,140 or \$57,970 or of \$26.66 or \$27.27 per square feet of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables to support their respective positions before the Property Tax Appeal Board. The Board gives reduced weight to appellant's comparable #1 for lack of central air conditioning, a feature of subject, and appellant's comparables #2, #3, and #5 which differ significantly from the subject in dwelling size.

The Board finds the best evidence of assessment equity to be the appellant's comparable #4 and the board of review's comparables which are more similar to the subject in dwelling size, basement amenity and finish, age, garage size, as well as other amenities. The comparables have improvement assessments that range from \$48,872 to \$57,970 or from \$22.49 to \$27.27 per square foot of living area. The subject's improvement assessment of \$52,140 or \$26.66 per square foot of living area falls within the range established by the best comparables in the record. Based on this record and after considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
