

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Stephen Brice  
DOCKET NO.: 23-20685.001-R-1  
PARCEL NO.: 16-08-121-015-0000

The parties of record before the Property Tax Appeal Board are Stephen Brice, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$8,884  
**IMPR.:** \$45,869  
**TOTAL:** \$54,753

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

Appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 104-year-old, 2-story, single-family dwelling of stucco construction with 2,173 square feet of living area. Features of the home include a full, unfinished basement, 2.1 bathrooms, 1 fireplace, and a two-car garage. The property has a 6,840 square foot site located in Oak Park, Oak Park Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

Appellant contends assessment inequity as the basis of the appeal. In support of this argument, appellant submitted information on three suggested equity comparables. Each comparable was improved with a 2-story residence of stucco construction. The comparables ranged: between 1,828 and 2,086 square feet of living area; in assessment between \$18.71 and \$21.41 per square foot of living area; in age between 98 and 110 years old; and between 1 and 2 bathrooms. All three of the comparables were located within a quarter of a mile from the subject property.

Appellant also submitted a copy of the board of review's December 7, 2023, written decision reflecting its final, reduced total assessment for the subject property of \$54,753. Based on this evidence, appellant requested a reduction in the subject's assessment to \$49,000.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total valuation assessment for the subject of \$54,753 and an improvement assessment of \$45,177, or \$20.79 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four suggested equity comparables. Each comparable was improved with a 2-story residence of either frame or stucco construction. The comparables ranged: between 2,034 and 2,228 square feet of living area; in assessment between \$21.56 and \$24.71 per square foot of living area; in age between 110 and 124 years old; and between 1.1 and 3 bathrooms. Three of the board of review's comparables were located within a quarter of a mile from the subject property.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds appellant *did not meet* this burden of proof and a reduction in the subject's assessment *is not* warranted.

The Board finds the best evidence of assessment equity to be *appellant's comparables #1 and #3* and the *board of review's comparables #2 and #3*. These comparables were most similar to the subject property in living area square footage, construction, or closest to it in proximity. All of the comparables submitted by both parties were similar to the subject property in age and amenities. Lesser weight was given to the comparables with the greatest differences in living area square footage and construction in comparison to the subject property or the furthest from it in proximity. The best comparables had improvement assessments that ranged from \$18.71 to \$24.71 per square foot of living area. The subject's improvement assessment of \$20.79 per square foot of living area falls within the range established by the best comparables in this record. Based on this record, the Board finds appellant *did not* demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment *is not* justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
