

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Peter Carr
DOCKET NO.: 23-20727.001-R-1
PARCEL NO.: 15-12-104-011-0000

The parties of record before the Property Tax Appeal Board are Peter Carr, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,065
IMPR.: \$49,598
TOTAL: \$62,663

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 1,976 square feet of living area. The dwelling is approximately 104 years old. Features of the home include a full basement with finished area, central air conditioning, one fireplace, 1 full and 2 half bathrooms and 2-car garage.¹ The property has a 10,050 square foot site and is located in River Forest, River Forest Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

¹ The board of review describes the subject property as featuring 1 full and 2 half bathrooms; however, the appellant describes subject as featuring 1 bathroom only. The Board finds the best description of the subject's property is in the board of review's Board of Review – Notes on Appeal Form PTAB-6, Section III Comparable Sales/Assessment Equity Grid Analysis which was unrefuted by appellant. The appellant failed to disclose the presence of half bathrooms in any of its comparables, despite such details being clearly indicated in the submitted property data sheets.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables located within the subject's assessment neighborhood. The comparables are composed of class 2-05 two-story dwellings of masonry, frame, or frame and masonry exterior construction, ranging in size from 1,920 to 2,163 square feet of living area. The homes are approximately 98 to 140 years old. Each property has a full basement with finished area, and 1 or 2 full bathrooms, with four comparables having an additional 1 half bathroom. Three comparables have one fireplace and a 1-car or 2-car garage. The comparables have improvement assessments that range from \$42,040 to \$46,830 or from \$21.11 to \$21.90 per square feet of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$42,780 or \$21.65 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$62,663. The subject property has an improvement assessment of \$49,598 or \$25.10 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the subject's assessment neighborhood and within the same block or .25 of a mile from subject. The comparables are composed of class 2-05 improved with two-story dwellings of frame or frame and masonry exterior construction ranging in size from 1,744 to 2,156 square feet of living area. The comparables are approximately 108 to 121 years old. Each comparable has a full basement, one with finished area, 1 full and 1 half to 2 full and 1 half bathrooms, one fireplace, and a 1-car or 2-car garage. Three homes feature central air conditioning. The comparables have improvement assessments that range from \$43,935 to \$58,365 or \$25.19 to \$27.07 per square feet of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables to support their respective positions before the Property Tax Appeal Board. The Board gives reduced weight to appellant's comparables #2 and #3 which differ from subject in age and/or its lack of garage feature.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1, #4 and #5 and the board of review's comparables which are most similar to the subject in dwelling size, age, and foundation type. However, the comparables have varying degrees of similarity to the subject in other features, suggesting adjustments would be required to make the comparables

more equivalent to the subject. Nevertheless, the comparables have improvement assessments that range from \$42,040 to \$58,365 or from \$21.11 to \$27.07 per square foot of living area. The subject's improvement assessment of \$49,598 or \$25.10 per square foot of living area falls within the range established by the best comparables in the record. Based on this record and after considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
