

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: William Furey  
DOCKET NO.: 23-20929.001-R-1  
PARCEL NO.: 15-01-216-037-0000

The parties of record before the Property Tax Appeal Board are William Furey, the appellant, by Amy C. Floyd, Attorney at Law in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$17,017  
**IMPR.:** \$65,478  
**TOTAL:** \$82,495

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of masonry exterior construction with 3,118 square feet of living area. The dwelling is approximately 82 years old. Features of the home include a full basement, a fireplace and a 2-car garage. The property has an approximately 11,159 square foot site and is located in River Forest, River Forest Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are class 2-06 properties improved with 2-story dwellings of masonry or frame and masonry exterior construction ranging in size from 2,695 to 3,321 square feet of living area. The dwellings are 72 to 90 years old and have partial or full basements. Two comparables have central air

conditioning. Each comparable has one or two fireplaces and a 2-car garage. The comparables have improvement assessments ranging from \$46,199 to \$69,884 or from \$17.14 to \$21.04 per square foot of living area. Based on this evidence the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$88,999. The subject property has an improvement assessment of \$71,982 or \$23.09 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are class 2-06 properties improved with 2-story dwellings of masonry exterior construction ranging in size from 3,191 to 3,261 square feet of living area. The homes are 73 to 86 years old and have partial or full basements with finished area. The comparables each have central air conditioning, one fireplace and a 2-car garage. The comparables have improvement assessments ranging from \$75,914 to \$77,592 or from \$23.78 to \$23.93 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains eight suggested comparables for the Board's consideration. The Board gives less weight to appellant's comparables #1 and #2 as well as the board of review comparables which have central air conditioning, a feature the subject lacks. In addition, appellant's comparable #1 has a significantly smaller dwelling size when compared to the subject.

The Board finds the best evidence of assessment equity to be appellant's comparables #3 and #4 which overall are more similar to the subject in age, dwelling size and features. These comparables have improvement assessments of \$64,931 and \$69,884 or \$20.65 and \$21.04 per square foot of living area. The subject's improvement assessment of \$71,982 or \$23.09 per square foot of living area falls above the two best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
