

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mark Gallas
DOCKET NO.: 23-21593.001-R-1
PARCEL NO.: 05-28-107-024-0000

The parties of record before the Property Tax Appeal Board are Mark Gallas, the appellant, by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$19,328
IMPR.: \$61,663
TOTAL: \$80,991

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 2,182 square feet of living area. The dwelling is approximately 96 years old. Features of the home include a full basement, central air conditioning, a fireplace and a 2-car garage. The property has a 6,040 square foot site and is located in Kenilworth, Orland Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are class 2-05 properties improved with 2-story dwellings of masonry exterior construction ranging in size from 1,663 to 2,071 square feet of living area. The dwellings are 81 to 96 years old and

have full basements. One comparable has central air conditioning. Each comparable has one fireplace and a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$38,861 to \$55,652 or from \$23.37 to \$26.87 square feet of living area. Based on this evidence the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$80,991. The subject property has an improvement assessment of \$61,663 or \$28.26 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are class 2-05 properties improved with 2-story dwellings of frame or masonry exterior construction ranging in size from 1,817 to 2,075 square feet of living area. The homes are 70 to 94 years old and have full basements with finished area. Two comparables have central air conditioning. Each comparable has one or two fireplaces and a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$55,672 to \$61,440 or from \$28.41 to \$30.67 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight suggested comparables for the Board's consideration that have the same neighborhood and property classification codes as the subject. The Board gives less weight to appellant's comparables #1 #2 and #3 as well as board of review comparables #1 and #3 due to differences in dwelling size, lack of central air conditioning and/or smaller garage capacity when compared to the subject.

The Board finds the best evidence of equity to be appellant's comparable #4 along with board of review comparables #2, and #4 which are more similar to the subject in location, age, dwelling size and features. These comparables have improvement assessments ranging from \$55,652 to \$61,440 or from \$26.87 to \$30.67 per square foot of living area. The subject's improvement assessment of \$61,663 or \$28.26 per square foot of living area falls within the range established by the best comparables in this record on a per square foot basis but slightly higher on an overall basis which is logical considering the subject's larger dwelling size. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
