

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Pavle Vukanic
DOCKET NO.: 23-21605.001-R-1
PARCEL NO.: 27-05-304-036-0000

The parties of record before the Property Tax Appeal Board are Pavle Vukanic, the appellant(s), by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,304
IMPR.: \$69,093
TOTAL: \$79,397

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of an 18-year-old two-story, single-family dwelling of masonry construction with 4,265 square feet of living area. The property, located in Orland Park, Orland Township, Cook County, has a 13,739 square foot site. Features of the home include three and a half bathrooms, a full unfinished basement, one fireplace, central air conditioning and a three-car garage. The subject is classified as 2-08 under the Cook County Real Property Assessment Classification Ordinance. The record reflects that the subject property is owner-occupied.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables with varying degrees of similarity to the subject property. The suggested comparable properties range in size from 3,904 to 4,800 square feet of living area. Three of the suggested comparable properties have one fireplace and two have two fireplaces. Three of the suggested properties have a full finished

basement, one has a full unfinished basement and one has a slab foundation. Two of the comparable properties have a two-car garage, two have a three-car garage and one has a four-car garage. The record is silent as to the distance of the comparable properties to the subject property. The comparables range in age from thirty to fifty-four years old. The comparables have improvement assessments ranging from \$8.62 to \$10.24 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment to \$49,712.

The Board of Review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$79,397. The subject property has an improvement assessment of \$69,093 or \$16.20 per square foot of living area. In support of its contention of the correct assessment, the Board of Review submitted information on three equity comparables. The suggested comparable properties ranged in size from 3,883 to 4,042 square feet of living area. Two of the suggested properties have two fireplaces and the other has one. Two of the suggested properties have full finished basements and the other has a partial basement with a formal recreation room. Each of the suggested comparables was listed as having central air conditioning and each has a three-car garage. The Board of Review reported that the suggested comparables are located on the same block as the subject property. The comparables range in age from seventeen to nineteen years old. The comparables have improvement assessments ranging from \$16.97 to \$17.38 per square foot of living areas. Based on this evidence, the Board of Review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer asserts assessment inequity as the basis of the appeal. The Illinois Constitution requires that real estate taxes, "be levied uniformly by valuation ascertained as the General Assembly shall provide by law." Ill. Const. art. IX, §4 (1970); Walsh v. Property Tax Appeal Board, 181 Ill. 2d 228, 234 (1998). This uniformity provision of the Illinois Constitution does not require absolute equality in taxation, however, and it is sufficient if the taxing authority achieves a reasonable degree of uniformity. Peacock v. Property Tax Appeal Board, 339 Ill. App. 3d 1060, 1070 (4th Dist. 2003).

When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by the appellant by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e); Walsh, 181 Ill. 2d at 234 (1998). Clear and convincing evidence means more than a preponderance of the evidence, but it does not need to approach the degree of proof needed for a conviction of a crime. Bazyldo v. Volant, 164 Ill. 2d 207, 213 (1995). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant **did not** meet this burden of proof and a reduction in the subject's assessment **is not** warranted.

The Board finds the best evidence of assessment equity to be appellant's comparables #2 and #4 and the Board of Review's comparables #1, #2 and #3. These comparable properties had more similarity with the subject property in terms of living area, basement and – in the case of the

Board of Review's comparables – proximity to the subject property. In contrast, appellant's comparable #1 is distinguishable from the subject for having a slab foundation rather than a full basement and appellant's comparables #3 and #5 are considerably larger than the subject property. The Board finds that these comparables are afforded less weight based on these distinguishing characteristics.

The best evidence comparables ranged in improvement assessment of \$8.81 to \$17.38 per square foot of living area. The subject's improvement assessment of \$16.20 per square foot of living area falls below the range established by the best comparables in this record. After considering adjustments to these comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is not supported. Based on this record the Board finds the appellant **did not** demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment **is not** justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
