Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of two parcels improved with a 2-story dwelling of masonry exterior construction with 2,963 square feet of living area. The dwelling is approximately 96 years old. Features of the home include an unfinished basement, two fireplaces and a 2-car garage. The property has an approximately 9,646 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with 2-story class 2-06 dwellings of masonry or stucco exterior construction ranging in size from 2,916 to 3,467 square feet of living area. The homes range

from 97 to 102 years old. Each comparable has a basement with "N/A" reported for the finished basement area, one fireplace and a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$58,320 to \$68,533 or from \$18.56 to \$20.24 per square foot of living area. Based on this evidence, the appellant requested the subject's combined improvement assessment be reduced to \$58,253 or \$19.66 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" for one of the two subject parcels. The appellant submitted a copy of the Cook County Board of Review's final decision disclosing the combined total assessment for the subject of \$83,004. The subject property has an improvement assessment of \$61,783 or \$20.85 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with 2-story class 2-06 dwellings of masonry exterior construction ranging in size from 2,482 to 3,367 square feet of living area. The homes are from 74 to 94 years old. Each comparable has a basement, three of which have finished area. Each dwelling has one fireplace and a 2-car garage. Two dwellings have central air conditioning. The comparables have improvement assessments ranging from \$55,235 to \$83,814 or from \$22.25 to \$25.25 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gives reduced weight to appellant comparable #4 and board of review comparables #2 and #4 which are less similar to the subject in age, garage size and/or presence of central air conditioning. The Board finds the best evidence of assessment equity to be appellant comparables #1, #2 and #3 along with board of review comparables #1 and #3 which are more similar to the subject in location, age, design, dwelling size and some features. However, one of these properties has a finished basement and no information was reported for basement finished area of appellant comparables #1, #2 and #3, suggesting adjustments may be necessary to account for differences from the subject in basement amenities. These comparables have improvement assessments ranging from \$58,320 to \$83,814 or from \$18.56 to \$25.25 per square foot of living area. The subject's improvement assessment of \$61,783 or \$20.85 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
